GENERAL REVIEW.

CHICAGO, January, 1886.

E. NELSON BLAKE, Esq., *President of the Board of Trade of the City of Chicago:*

Sir,—It is alike my duty and pleasure to present you with the Twenty-eighth Annual Report of the Board of Trade of the City of Chicago, accompanied with such national statistics and observations as are interwoven with the business of the Exchange, and without which any conception of the trade of this city would be narrow, incomplete, and unworthy.

The area of the states and territories under the national flag is, in square miles, 3,583,822, and in acres, 2,293,645,988, with a population which increased from 5,308,483 in 1800 to 57,093,000 in 1885, not including the inhabitants of Indian Territory, who have not the privilege of citizenship. The number of persons to the square mile, excluding the territory of Alaska and the Indian Territory, was, in 1880, 17.29; the number of dwellings in the United States was, at the last census, 8,955,812; persons to a dwelling, 5.6; number of families, 9,945,916; persons to a family, 5.04.

The largest state in the union is Texas, comprising 274,356 square miles, or 175,587,840 acres; of the territories, Alaska is the largest, covering 577,390 square miles, or an acreage of 369,529,600. The states most intimately connected with Chicago, whose products, in a large degree, find a market here, and whose wants are here principally supplied, are Illinois, Missouri, Iowa, Wisconsin, Kansas, Nebraska and Minnesota, with 470,170 square miles of territory, or 300,909,064 acres, which contained in 1880 a population of 10,415,634, being about the same as the population of the states of New York, Ohio, New Hampshire, and Massachusetts together, upon a territory of 104,052 square miles. Were we to add to this list of states the territory of Dakota, with her 150,932 square miles, and the great state of Colorado, with her 104,500 square miles of magnificent arable lands, and reflect, even for a moment, upon the productive power of all this vast domain, and moreover, that it has as yet scarcely begun to be peopled, we must stand amazed at the future which is spread out before this favored city of Chicago, situated at the head of a mighty chain of inland seas, whose waters could float the commerce of a continent, and which, by the Creator, seem evidently designed for a highway along which to

distribute the multiform products of an immense region, and by which, in return, to supply the varied wants which, under our benign institutions, an ever increasing civilization demands.

NATIONAL FINANCES.

During the last decade the national debt has been reduced \$731,801,188.28, and since 1866 (the year when it reached the largest sum), \$1,404,594,564.45, so that the reduction realized in twenty years is \$25,763,249.73 more than the amount of the present indebtedness, said indebtedness being \$1,378,831,314.72. It should here be observed that the accounts of the financial department of the government have been so adjusted under the management of the able secretary of the treasury, as to provide for \$43,426,963.32, which represented an accumulation of interest on Pacific Railroad bonds, heretofore charged to "bonds issued in aid of railroads," and which, in statements made of the "reduction of the public debt," were to some extent misleading. This renders it proper to add that the actual diminution of the debt for the year 1885 is not \$39,717,056.68, as is made to appear by the conservative statement of the national finances, but is actually \$83,144,020. The debt is \$24.09, and the interest on the same is thirty-two cents per capita, which is the lowest rate per capita since the year 1862. The amount of income derived from internal revenue and customs revenue during the last year was \$293,970,664.88, collected at an expense of three and one-half per cent. In addition, large amounts were derived from the public lands, miscellaneous, and "net ordinary receipts." The estimate of the honorable secretary of the treasury for the year 1886 is \$315,000,000 for revenue, and \$245,000,000 for expenditures. The aggregate appropriations made by the forty-eighth congress for the fiscal year 1886 are \$170,608,113.60, the largest item in such list being \$60,000,000 for pensions to soldiers and sailors, invalids, widows, and survivors, numbering, June 30, 1885, 345,125; 2,945 being survivors of the war of 1812.

To this record, financial and patriotic, every American must turn with a justifiable pride, and place an inestimable value upon the privilege and honor of his citizenship. Sublimely and gratefully faithful to the heroic defenders now living, and to those who have paid "the last full measure of devotion," unhesitatingly discharging in gold every financial obligation, the United States, with conscious, inherent vigor and integrity, enters upon another year in the development of agriculture and manufactures, in the arts and sciences, and in the promotion of all that contributes to a general and high civilization. The Nation insists that her dearly purchased benefits, treasured up in the eventful period of more than one hundred years, shall be extended to the hum-

blest citizen, and to the last immigrant upon her shores, whether he be Celt or Saxon, of whatever clime or kindred, provided he bring an honest, courageous, and industrious endeavor to become worthy of the incentives and blessings of the grandest country and the most beneficent government. With "room about her hearth for all mankind," America has no welcome for the vagabond or pauper immigrant, whether he hail from Pekin or London. To the industrious and ambitious, endowed with mental and physical stamina, chafing under monarchical restrictions, seeking the priceless blessings of a free government for themselves and for their posterity, she opens wide her doors. She would convince these that here they may find a home; that here labor is dignified, education fostered; protection, civil and religious, guaranteed; and for the truly deserving there is a highway to the highest social and political distinction; the shoemaker may become a senator; the blacksmith, her proficient son; the rail-splitter, by virtue, ability, study, perseverance, honesty, and self-respect, may be a statesman, winning and receiving the admiration of the world. It is the chief glory of America that here, from the smallest and most obscure beginnings, all may aspire to usefulness and distinction. No accident of birth, however lowly, can bar the worthy from his deserts; nor can any wealth or ancestral renown insure to the undeserving, preference or advancement.

The number of immigrants arrived in the United States in 1885 was 395,346, which is 123,246 less than in the preceding year; 198 were from Asia, and 251,488 from Europe. A diminution in the volume of the tide of immigration has no conclusive significance regarding national prosperity; it may indicate a severity of home surroundings, rendering the inhabitant of the old world unable to escape from his degradation and limitations.

The total number of immigrants arrived in the United States from 1874 to 1885, inclusive, is 4,602,915, and was greatest from agricultural districts, where landed proprietors hold large estates, and least from industrial regions. The Chinese Immigration Act went into effect August 6, 1882. For further information under this head, I beg to refer to the table of immigration statistics in my report.

The production of the great cereals, viz.: corn, wheat, and oats, for the year 1885, is larger than for the year immediately preceding, the increase in the crop of corn and oats being greater than the decrease in that of wheat.

The Rye and Barley crops will, it is estimated be about the same in volume as in 1884; so that the crop of cereals for 1885 aggregates very nearly three thousand million bushels, at a valuation of over eleven hundred and thirty-one million dollars.

The yield of the Cotton crop for the last year is estimated at something over 6,000,000 bales (though from official data it is 5,706,165 bales), produced on 18,710,000 acres. The product does not vary materially from that of 1884. The average rainfall over the Cotton region was the largest since 1882, being 14.65 inches. The area upon which the crop was grown is five per cent greater than that of last year, and shows a tendency to increased cultivation west of the Mississippi. The prominence of this crop, and its preëminence among our exports, are too well recognized to require special elucidation by any extended comparisons.

The crop of Corn, as estimated, is 1,936,176,000 bushels, which is an increase over the crop of 1884 of 140,648,000 bushels. The area upon which it was raised is 73,130,150 acres, indicating a yield of 26.5 bushels per acre, which is the first time for five years that a full average has been shown. In 1881 the yield was 18.6 bushels per acre; in 1882, 24.6 bushels; in 1883, 22.7 bushels, and in 1884, 25.8 bushels per acre.

The increased Maize acreage was occasioned by the injury to wheat, in consequence of which, a large area was replanted with Corn. The average farm price was 32.8 cents per bushel, or a little more than half that of 1881, and three cents less than in 1884. The home valuation is about \$5,000,000 less than that of 1884, though the crop is 140,600,000 bushels greater. This grand crop of nearly 2,000,000,000 bushels was raised principally in the following states, named in the order of their volume of production: Illinois, Iowa, Missouri, Kansas, Indiana, Nebraska, and Ohio.

The area of Maize is always nearly double the combined acreage of all other cereals of the United States. It is the great crop of America (always excepting grass), and is so preëminently American, that its habitat is practically unlimited.

Wheat has suffered seriously from winter killing, which was quite severe between the 36th and 40th parallels of latitude. The loss was not material in the northern belt, while the South, which is usually exempt from such injury, did not wholly escape. The production is 357,112,000 bushels, with a valuation of \$275,320,390, as against 512,763,900 bushels, and a valuation of \$330,861,254 for the year 1884. The average farm price was 77.1 cents per bushel, which is twelve and one-half cents per bushel higher than that of last year. The yield, upon the basis of the area harvested, is 10.4 bushels per acre.

The crop of Oats was the largest ever recorded, occasioned, as in the case of corn, by the partial failure of wheat in many localities: the acreage being 22,783,630, the yield 27.2 bushels per acre, and the outturn 629,409,000 bushels, at a valuation of \$179,631,860, or 28.5 cents per bushel.

The great importance of the swine-breeding industry is evident, as we consider that there are about 47,000,000 Hogs during the summer season in the United States, equal in number to six-sevenths of the population. The number annually slaughtered is about 28,000,000, and the consumption is estimated at seventy pounds to each inhabitant, or 4,000,000,000, pounds. The annual exportation for twenty-five years, including Hogs with pork product, has been 530,000,000 pounds. The average weight of swine dressed was 175 pounds. The large corn supply and moderate prices account for the good condition of Hogs. There has been a marked exemption from widespread disease during the year, though in some counties south and west, cholera has prevailed in consequence of severe weather, scarcity of food, and the feeding of immature corn. Hogs have multiplied more rapidly than the facilities for their proper care increased.

That the extent of this industry is largely commensurate with the corn product, and that its geographical distribution is defined by our corn territory, is a statement which, in itself, is a demonstration. It is estimated by Mr. J. R. Dodge, Statistician of the Department of Agriculture, that the value of Hogs annually slaughtered in the United States is \$393,570,000. The following is the list of states in the order of their production of swine: Iowa, Illinois, Ohio, Missouri, Indiana, Kansas, Nebraska, Wisconsin, Tennessee, and Kentucky.

The vast herds of Cattle which roam over a large part of the western and northwestern territories, graze chiefly upon the public domain, not by any express permission of the federal authority, but merely by sufferance. The wisdom of the governmental policy with regard to public lands, in preventing their purchase in immense tracts by either domestic or foreign syndicates, is abundantly vindicated in the development of our great western states. The vigorous action of the chief executive in rescuing from any semblance of lawful occupancy the immense acreage which, by insidious steps, was passing from direct national control, cannot be too highly commended. There are, however, stretches of territory remote from settlements, occupied for grazing purposes without embarrassment to national authority, which, indeed, serve as an effectual means to keep the Indians upon their reservations by expelling game (principally buffalo) from the ranges. This territory should be utilized in the interest of this stupendous industry, free from any complicating concessions.

The adjustment of many important questions involved in the disposition of the public lands and their proper use for range and Cattle business, will doubtless be arranged by Congress at an early day.

The total number of Cattle in the United States in 1884 was 49,417,782, valued at \$1,189,576,926. The total value of the Cattle of

Texas and of the Cattle which range in the area north of Texas, constitute about 28 per cent of the entire value of Cattle in the United States.

The number of Sheep in the states and territories, amounts to 50,360,243. The low price of wool has checked in some degree the interest in Sheep husbandry, and the degree of mortality has been unusually great, caused by poor condition of flocks and cold weather.

The number of miles of Railroad constructed during the year in the United States, may be stated at 3,113. The activity, enterprise, fruitfulness, and intelligence of this country, these qualities being absolutely inseparable from Railway extension, are in no way more conclusively shown than by the simple statement, pregnant with significance, that in this land there are nearly 129,000 miles of Railway in active use. Russia, with 60,000,000 of people, in 1884 had but 15,767 miles of Railway, and Great Britain but 18,864 miles, while the entire continent of Europe contained but 116,496 miles.

While the most advanced teaching of political economy favors the development of the home market, yet in a country prolific in food-supplying products, the exports of breadstuffs and provisions, bear an important relation to general prosperity, and to the intelligent diversification of great cereal crops, and should be most studiously considered.

The value of our exports of domestic merchandise for the year ended June 30, 1885, was \$726,682,946, as against \$724,964,852 for the year 1884. In the year 1881 our exports amounted to \$883,925,947, which was the highest point attained in the history of our foreign commerce, the decrease in the value since then of 17.8 per cent being accounted for, in the most part, by the decline in the value of our exports of cotton, breadstuffs, and provisions. Our most valuable article of export is Cotton, 1,891,659,472 pounds, valued at \$201,962,458, having been exported during the last fiscal year, showing an increase of 29,000,000 pounds over the quantity exported during the year 1884.

Next in order of value on the list of exports, is Breadstuffs, amounting during the year ended June 30 last, to \$160,370,821.

The exports of Wheat for the year, aggregated 84,653,714 bushels, at a valuation of \$72,933,097, as against 70,349,012 bushels exported in 1884, valued at \$75,026,678, showing an increase in quantity of 14,304,702 bushels, but a diminution in value of \$2,093,581.

Our Corn exports reached 51,834,416 bushels, valued at \$28,003,863, which show an increase of 6,586,926 bushels over the exports of this cereal in 1884, though the valuation was only \$355,819 greater.

The quantity of Wheat Flour exported is a gratifying exhibit, being 10,648,145 barrels, at a valuation of \$52,146,336. This is the largest quantity ever sent abroad, and more than 7,000,000 barrels in excess

of the exports of 1877, and 1,495,585 barrels more than during the year 1884.

Of Bread and Biscuit we exported 16,471,972 pounds, valued at \$702,027. But twice have our yearly exports of these articles exceeded this quantity.

We exported of Oats in the fiscal year 1885 4,191,692 bushels, valued at \$1,589,640, which is the largest quantity since 1879 shipped in any one year, and which shows an increase in valuation over the exports of the preceding year of \$888,956; or, to state it with greater emphasis, more than double the valuation of the exports of 1884.

Thus it may be observed that our exports of Wheat, Corn, Oats, and Flour reduced to its equivalent in wheat, record an increase over such exports in 1884 of more than 30,000,000 bushels. This exportation of 188,596,475 bushels of grain is valued at \$154,672,936, which is greater than the valuation of the corresponding exportation of 1884. No phase of our commerce more clearly expresses the ability of this country to cope successfully with exceptional and comparatively depressed conditions, than the foregoing statements; not, however, upon the plane of a reduction of wages to the laborer, whose civilized requirements cannot wisely be curtailed, nor upon any radical reduction of farm prices, but principally by a shrinkage of the revenue of capital in the line of transportation, and the skillful application of business facilities to emergent circumstances, together with the acceptance of diminished profits by the merchant and manufacturer. Commercial depression weighs more heavily upon the merchant and capitalist, than upon the farmer and laborer. Financial wrecks are not so frequently found upon the farm, as in the marts of trade.

Next to Breadstuffs on the list of exports is Provisions, the value of which amounted in 1885 to \$107,332,456. The quantity of Bacon and Hams shipped was 10,500,000 pounds more than was exported in 1884, though the valuation was \$2,600,000 less. The exports of Lard also showed an increase in quantity and a decrease in value—an increase in quantity of 18,000,000 pounds, and a decrease in value of \$2,700,000. The value of our exports of Hog Products, which comprise Bacon and Hams, Pork and Lard, was \$64,883,110, being smaller in the year 1885 than during any year since 1875. The maximum value was reached in 1881, when it was \$104,660,065.

The following table exhibits the value of our exports of provisions, comprising meat and dairy products, and also shows the growth of our export trade in the principal articles included therein, since 1860:

The aggregate value of the exports of Cotton, Breadstuffs, and Provisions for the fiscal year ended June 30, 1885, was \$469,665,735, constituting 64 $\frac{3}{4}$ per cent of the total exports.

A conspicuous fact under this head of my report, is the increase of the exports of Refined Sugar. In 1884 we exported 76,000,000 pounds, and were credited for the same, \$5,400,000. During the present year we shipped 252,500,000 pounds, valued at \$16,000,000, showing an increase in quantity of 176,500,000 pounds, and in value of \$10,600,000.

Ninety-five (95) per cent of the total value of our exports during the fiscal year 1885, is accounted for by the exports of Raw Cotton, Breadstuffs, Provisions, including Meat and Dairy Products, and Leaf Tobacco.

The exports of Coin and Bullion, both domestic and foreign, for the year ended June 30th last, were \$42,231,525, which amount is \$1,010,798 less than the imports for the same period. For the corresponding time in 1884 the exports of specie were in excess of imports \$29,707,121.

The value of our imports of merchandise sustained so favorable a relation to that of our exports as not to result in a national debit balance, to be discharged by shipments of specie. The universal acceptance of the financial situation and the prudent conformity thereto, is evidenced by the character and limitations of our imports. The sagacious management of controlling business and financial interests

which is here emphatically implied, should inspire confidence in individual obligations, because under a judicious financial and mercantile policy emanating from prominent bankers and extensive merchants, individual indebtedness is circumscribed within conservative boundaries; thus in seasons of comparative dullness, are averted alarm, distrust, and disaster.

Our foreign commerce exhibits the very gratifying result of an excess of exports over imports of \$164,662,426 as compared with \$72,815,916 for the previous year. Notwithstanding our imports and exports of merchandise have declined from the highest point to \$1,319,717,084 in consequence of long-continued commercial depression, yet the development of our foreign commerce since 1860 is exceedingly gratifying: the total value of our imports and exports of merchandise increased from \$687,192,176 in 1860, to \$1,319,717,084 in 1885, or 92 per cent. Our exports of domestic merchandise increased from \$316,242,423 in 1860 to \$726,382,946 in 1885, or 129 per cent.

The carrying trade of the United States has steadily diminished, and no American can turn with pride to its condition as it recedes from view. The national flag which should float above American commerce on all seas, is seldom seen at the masthead, and the spectacle of a foreign flag over American merchandise flaunts in our faces. In 1856, 75 per cent of our foreign commerce was shipped in American vessels, and now, with the enormous increase in that commerce which is here indicated, only 14.61 per cent is carried in American bottoms. The tonnage entered at ports of the United States in its foreign trade during the year ended June 30, 1885, was 2,709,212 tons of American sail and steam, and 9,578,280 tons of foreign sail and steam. Entered at lake ports, 422,799 American and 2,594,536 foreign tons. Out of 1,191 steam and sailing vessels which carried grain from New York to Europe in 1885, not one sailed under the American flag. Great Britain headed the list with 674 steam and 16 sailing vessels, which carried 30,374,334 out of the 47,103,264 bushels exported from New York. It is many years since American steamers did any of the grain carrying trade, but in 1880 there were still thirty-four American sailing-ships in the grain fleet.

Without delay the national government should restore our merchant marine and place her flag over American merchandise upon the high seas, where some of its proudest victories were won. By national aid if necessary, launch American hulls for American commerce. Let not foreign trade do what hostile guns could not accomplish. We should carry our exports to all markets and bring hither our imports, in vessels flying our own flag. Better admit foreign-built ships to American registry than to suffer the ocean carrying trade to pass from under the

national ensign. The maritime power of this nation must be restored, and we should be aroused to a sense of the danger and decay which threaten it. The statesmanship of Washington and Jefferson in placing the maintenance of the merchant marine among the chief safeguards of national security, should not be forgotten. History teaches that national effeminacy accompanies the degeneracy of the merchant marine, and that the decline of maritime power is followed by the decadence of enterprise and commerce. We are humiliated by the situation of buying from South America a large proportion of her raw products while our money is being remitted to Great Britain in payment of South American imports, which we could more acceptably supply had we the vessels to command her trade. Any policy which sends would-be customers for our manufactures to foreign markets, with American gold in their pockets, should straightway be abandoned; such a policy forces us, in order to get back our gold, to compete with uncivilized labor in the exportation of raw material.

Financial disasters for the year 1885 have not only been fewer in number, but the aggregate liabilities have been very much less than for the preceding year. The total number of failures in 1885 was 11,116, against 11,620 in 1884, and the amount of liabilities \$119,120,000, against \$248,740,000 in 1884, and \$175,968,000 in 1883, though the assets for 1885 bear a less favorable proportion to the liabilities of that year than did the assets of the previous year to its liabilities, the percentage of total assets to liabilities in 1885 being 46 per cent, as compared with 54 per cent in 1884, and 52 per cent in 1883.

It is an encouraging feature that the liabilities of insolvent debtors were materially less than in the year immediately preceding, as it is not so much the ratio of assets to liabilities which defines the true general financial tendency, as it is the proportion which the liabilities of one year bear to those of another. Is the volume of involved or embarrassed capital being reduced? This is the vital question in view of determining the signs of the times. Again, it is not the number of failures which affords any conclusive light on the financial condition; one large, disastrous collapse, works more widespread and lasting injury than many small failures distributed through several months and over a large tract of country. Instances will readily be brought to mind of single failures producing more loss and demoralization in the market, and inflicting deeper wounds, than scores of ordinary business misfortunes: the process of recovery from such failures is quite likely to be tedious and painful. There have been few such failures during the past year, as capital has been timid and business generally has been sagaciously and prudently managed.

Taking into consideration surrounding circumstances, the voyage of

the year, in spite of comparative dullness, has been made with remarkable good fortune.

ILLINOIS.

The State of Illinois produced in the year just closed 356,537,155 bushels of grain, as against 352,481,786 bushels in the year 1884, showing an increase in corn and oats of 34,395,065 bushels, but a decrease in wheat, rye, and barley of 28,339,696 bushels, the principal decrease being in the crop of wheat, which was 26,068,250 bushels less than in 1884.

The aggregate value of the product of broom corn, sorghum, grass seeds, potatoes, hogs, cattle, sheep, and dairy products for the year 1885 is \$67,793,197, making a total valuation of agricultural products for the year of \$169,432,750.

The comparative failure of the wheat crop in this state resulted in a largely increased acreage of corn and oats, and accounted, in a great degree, for the marked falling off of the receipts of wheat in Chicago; indeed, the smallness of the wheat product (8,299,243 bushels) may be regarded as phenomenal, since for twenty-six years this product has not in any other year been less than 20,000,000 bushels, while in 1880 it reached over 56,000,000 bushels. The valuation of her cereals for the year amounted to \$101,639,553, as against a valuation of the same cereals in 1884 of \$115,789,443.

The state preserves her high record as one without an indebtedness, and with more miles of railway than any other state in the union, and a larger coal production than any other, save the great state of Pennsylvania. The fortunate situation of this state, covering so many degrees of latitude, and lying in the great corn belt, insures in all seasons magnificent crops; hence her teeming resources from mine and field are completely assured, constituting her a customer of undoubted financial ability, imparting no small measure of confidence to the merchants of this and other cities, who daily forward wares of all kinds to her intelligently industrious population.

CHICAGO.

The business of Chicago, in common with other cities, has been in some respects unsatisfactory, but her merchants, though not realizing the results which were anticipated at the beginning of the year, have yet many reasons for congratulations.

There certainly has been nothing approaching serious misfortune, though the protracted dullness has taxed patience, and disappointed ambition in some directions. The ability to successfully contend with unfavorable conditions has been demonstrated, and the salutary lesson that permanent profits must always bear a proper relation to the neces-

sities of living, has been learned. There is not that danger of sudden depreciation of values which, on the plane of high prices, is apt to occur, and which has precipitated, in some years, most serious failures and panics. Business is in a better condition than if a rapid advance in prices had intervened, and the year will have been a profitable one if it shall have taught the lesson which already seems at least partially learned in all departments, that economy and vigilance are the only guarantees of a uniform and abiding prosperity. Conduct business upon well settled business principles, and do not permit present expenditures, individual or otherwise, to discount a sanguine future.

Happily, the salutary process of liquidation, from the national government down to the individual, has been in the main adhered to, and a substratum of real prosperity is being laid. It is the observance of this approved policy which accounts for so-called dullness, but which, if intelligently considered, is a most encouraging feature of the past year. Whenever merchants swing away from this principle, they enter upon the accumulation of precarious rewards.

During the year Chicago has constructed 4,638 buildings, on a frontage of 108,952 feet, at a cost of \$19,624,100, showing an increase in number over those built in 1884 of 469, and 552 more than in 1883; also exhibiting a large increase in the extent of frontage.

The number of miles of railway leading into Chicago from the West, by main lines, is 23,401, and including branches, 47,931. The latter number is greater than the combined lines of railway in the United Kingdom, German Empire, and Italy.

The receipts of grain for the year amounted to 132,200,000, as against 137,200,000 bushels for the year 1884, and reducing flour to wheat, the receipts were 156,408,228 bushels, as against 159,561,474, showing a decrease of only 3,153,246 bushels, notwithstanding the comparative failure of the winter wheat crop in the region tributary to Chicago, which reduced our receipts of wheat 7,500,000 bushels for the year.

The shipments of grain aggregated 112,000,000, as against 117,000,000 bushels for the year immediately preceding, and reducing flour to wheat, the shipments amounted to 135,587,921 bushels, as compared with 138,652,155 for 1884, showing a reduction in total figures of 3,064,234 bushels. The number of Cattle received for the year is 1,905,518; of Hogs, 6,937,535, and of Sheep, 1,003,598, showing in the aggregate an increase over the corresponding figures of the year 1884 of 1,875,537.

The expansion, activity and unprecedented development of Chicago in all departments of business, her enterprise and ambition in arts and sciences, her instant application of inventions and facilities as a contribution to comfort, elegance, enjoyment and refinement; her honora-

ble competition in all that ministers to her prominence as a commercial and social center;—these all clearly reveal her early and constant recognition of that great principle of political economy, by virtue of which her renown has been achieved, viz., inter-state and inter-national commercial relations. Her attitude upon the very threshold of the door which opens upon the vast fields which stretch westward, abounding in agricultural and mineral wealth, offering to all an unstinted hospitality, is at once an invitation and an inquiry, ready to bestow and to share; also eager to secure advantages which those older and wiser have discovered. Constitutionally reciprocal, she gathers and dispenses, while her symmetrical growth attests the soundness of her policy and the breadth of her views. Nourished by the varied products of a vast territory, over the prolific acres of which full streams of immigration must continue to flow for many years to come, with rapid and developing rail and water communication on either hand, to producer west and consumer east, Chicago stands “with length of days in her right hand, and in her left hand riches and honor.”

The disabilities under which the foreign trade in pork products still labor, have not lessened since my last annual report. The ostensible reason for the restrictive measures applied by France and Germany to this important trade, has been by many eminent authorities stamped as completely untenable, and its falsity so conclusively exposed that any analysis or extended refutation is unnecessary in this review. An array of evidence, founded on both science and experience, has repeatedly been adduced, sufficient, both in volume and character, to most effectually controvert the position of *les grandes impuissances* upon this question. The real nature of the prohibitory decrees has been exposed, and no pretense of reply has been made. In the face of the universal acceptance of the American hog as an article of food, the charge of its unhealthfulness is manifestly absurd. What is needed, is vigorous action on the part of the national government to protect this great industry. The Academy of Medicine of Paris reported that 95,000,000 kilograms of American pork products, equal to 1,000,000 hogs, have been consumed in France in four years prior to 1881, without a single case of disease. In England and Belgium, where our products have been consumed for generations, not a single instance of trichinosis has been known. Professor Virchow, of Berlin, than whom there is no higher authority, says that not a case of this disease has ever been traced to American pork. It were very easy to multiply evidence upon this subject, and to accumulate proofs. The healthfulness of this food, produced by the soundest of our cereals, and prepared for market with scrupulous care, cannot be gainsaid. All insinuations to the contrary are in the nature of the flimsiest of pretexts, and the most transparent

of diplomatic jugglery. Foreign experts and scientists emphatically denounce the fraud, while the common people of these countries are the principal victims, denying themselves healthful and nourishing food at moderate prices, and bringing upon themselves want and distress by the acceptance of a tyrannical edict.

India has attracted more or less attention during the past year, and is a factor in all estimates of future prices, yet in the course of the markets, has not deserved the prominence which has been accorded her. The shipments from Russia, more than those from India, have depressed the wheat-buying markets.

The area under wheat in India is, by an approximate estimate, 27,620,223 acres, with a yield of 7,713,096 tons. Harvest begins early in March in southern and central India, and is at its height in April, when the Punjab and most of the northwest crops are reaped.

The number of miles of railway opened for traffic in India is 12,004, of which 1,218 were completed during the year. There were 3,555 miles under construction, which is approaching the 20,000 miles of railway which has been claimed as one of the pressing wants of India.

The increased exports of India wheat to the Mediterranean are observed. The cost of production per bushel is not, as is popularly supposed, materially, if any, less than in this country, the application of agricultural machinery and ingenious contrivances, together with intelligent and enterprising labor in the United States, fully offsetting low-priced labor in India. The problem which we have to solve in our competition with India wheat is to save, principally in transportation rates, the difference between the insignificant profit of the India farmer and the reasonable profit of the American farmer. This difference must, in the nature of things, be absorbed, if at all, by superior facilities, by the intelligent appropriation of inventive appliances, by reduced rates of transportation, and not upon the basis of the degradation of labor and the bridgiment of enlightened requirements. It must be remembered that the wants of the population accumulate as the comforts and luxuries of civilization are introduced, consequently the advance above cost which the native producer will demand, must increase with the development of the commerce of the country.

As elsewhere intimated, it is not proposed in this country to compete with *low-priced labor by low-priced labor*; but, by superior skill in mechanical affairs and ingenuity in inventions, overcome any temporary advantage gained by degraded labor or the limitation of enlightened wants. It is upon this plane that all conquests, commercial and political, have been made, and upon this plane alone is our superiority and advancement secure. Our resources in every emergency—in national danger and in trade competition—are in the intelligence of

our citizens — merchants, students, inventors, artisans, mechanics, and laborers. To that intelligence we never appealed in vain. The security of capital as well as commercial supremacy and national safety, are directly involved in the proper remuneration and protection of labor and the improvement of its environments.

FLOUR.

There are many features of the Flour trade which afford satisfaction, as indicating a strong tendency to a permanent improvement. The number of barrels of Flour manufactured by the city mills in 1885 was 575,116, which is 280,396 barrels more than in the year 1883. The number of barrels received was 5,385,772, showing the very substantial increase over the receipts of 1884 of 424,942 barrels, and in excess of the receipts of 1883, 1,090,257 barrels. The shipments for the year aggregated 5,240,199 barrels. In the early spring many thousand bags were sold for export, and the general trade was fairly active. Any uneasiness in foreign markets, caused by political complications, is quickly discerned in this trade; not by speculation alone, but by orders for immediate shipment of the "staff of life."

The scarcity of winter wheat in this state, as well as in Kansas and Missouri, curtailed the shipments of our winter wheat millers very materially, and had the effect of throwing a good many customers permanently upon the consumption of spring wheat Flour.

The direct export trade in Flour is increasing, and last year amounted to 719,076 barrels. The exports from eight Atlantic ports for the year were 7,959,022 barrels, as against 7,512,177 for the year 1884, and 6,676,121 in 1881. The quantity in store was the largest in the month of December, and the smallest in October. The larger part of the receipts came from the Northwest, and consignments from the Dakota and Colorado mills as well, are increasing to the satisfaction of consignor and buyer. Millers are finding it to their advantage to put their product in the hands of reliable commission merchants, who understand the peculiarities of the trade, the features of the demand, the situation of the markets, and the prices to which the miller is entitled. On the other hand, the jobber and shipper prefer, for manifest reasons, to trade in this market, and not handle their goods at arms' length. During the latter part of the year quite a good trade sprung up with the southern states. Prices have ruled steady most of the year, the highest prices prevailing in July and August, and the lowest early in the year.

This city should, by its position and by deserved freight protection, handle many times the quantity of Flour that it is now handling. The excellence and uniformity in grade of American Flour, as well as its "keeping" qualities, are being highly prized in foreign markets, and

there are gratifying indications of its ability to hold its supremacy and to increase its consumption. It is highly important that this trade should continue to receive the fostering care of the Exchange, as in the interest of general business it is deserving of special recognition.

WHEAT.

The receipts of Wheat for the calendar year 1885 were 18,909,717 bushels, being 7,487,870 bushels less than for the year preceding. This reduction was owing to a decrease in the product, of thirty per cent, but more immediately to the marked falling off in the yield of the states of Ohio, Indiana, Illinois, Missouri, and Kansas, which states produced last year but 80,000,000 bushels, against 170,000,000 bushels in the year 1884. Chicago could not otherwise than be materially affected in her receipts of Wheat, since the territory especially tributary to her was particularly deficient in yield. For this reason the receipts on the C., B. & Q. railway were 2,300,000 bushels, and on the C., A. & St. L. railway, 2,140,000, and the W., St. L. & P. railway, 2,360, and the C., R. I. & P., 620,000, less than for the year 1884. Our receipts for the crop year, viz.; from August 1, 1884, to August 1, 1885, amounted to 32,481,171 bushels, which are larger than for any corresponding period in our annals.

The lethargic market of the year is in no small degree traceable to the abundance of the crop year, though intensified by the overloaded markets of previous seasons in this and other countries. This accumulation was the inevitable result of extreme speculation from 1879 to 1882, which so enhanced the price of Wheat in this market that the average for 1881 and 1882 was about \$1.15 per bushel. Thus was incited agricultural production in all parts of the world, stimulated by capital, individual and corporate, growing out of the anxieties of food-importing countries. The price of regular or No. 2 Wheat moved with an indifferent and sluggish pace most of the year, between $72\frac{1}{8}$ cents in February to $91\frac{3}{4}$ cents in April. Prices reached the lowest point recorded in twenty-two years. The declaration of war by Servia inspired confidence for a while, and sent up the price to $90\frac{1}{8}$ cents on November 17. Large selling orders came in from home and foreign operators; fine weather induced free deliveries, and the price fell off to $83\frac{1}{4}$ cents, cash, the last of November. The character of the inspection has been maintained, and the reputation of this market as a reliable one in which to make cargo and car-lot purchases is fully sustained. No "doctoring" or manipulating of grain to change its true and unvarnished character, is permitted by this directory, and any slightest tendency in this direction is vigilantly guarded against in their official recognition of warehouses; yet no injustice is done to the shipper to this market, as ample facilities are afforded to sell by sample,

so that Wheat, if not properly cleaned, for instance, but in other respects desirable, is not sold on a par with that which is "off" of grade by reason of actual unsoundness and inferiority.

After the new crop began to arrive, our receipts revealed a large proportion of the lower grades, so that the difference in price between No. 3 Spring and No. 2 in store during October was fully thirteen cents per bushel: this difference in price is largely dependent upon a milling demand; for example, in the month of August, when millers were buying freely, the difference in price was only about seven cents per bushel. It should, however, be borne in mind that in cases where there is an approach in quality to No. 2, and the grain is more properly designated as "missing grade," it is sold judiciously by sample at a discount of from two to five cents from the price of No. 2. This feature of our market should be thoroughly comprehended by western consignors.

In this connection I desire to call attention to what I alluded to in my last report, viz.: the existence within our membership of the Receivers' Association, which has in view the prosperity of the western shipper, and the intelligent management of his consignments. Its efficiency is every year increasing, and its field of usefulness extending.

Below is a statement of the range of prices for No. 2 Spring Wheat in this market for the last twenty-seven years, showing the months in each year, of extreme prices.

CORN.

The market has been devoid of any special interest in buying and selling for future delivery, as few salient points were developed by the situation, upon which to base any foundation for the expectation of any marked change in values from month to month. In other words, there has been "no money in it." The passive character of the market thus engendered, in connection with some hurtful freight discriminations, resulted in forwarding liberal consignments around Chicago without so much as a passing nod. This phase of the market illustrates the utility and value of the activity of Chicago as a grain center, to the western shipper and producer, as the absence of this activity places the control of the market and its character largely in the hands of eastern buyers, restricting the producer as to quantity and frequency of sale to the immediate wants of the consumer, leaving him the alternative of selling at a lower price than he is entitled to receive, or holding his grain until the period of actual necessity for purchase recurs.

As elsewhere stated, the crop of Corn was immense, aggregating 1,936,176,000 bushels — the largest ever known. Illinois leads in the amount of production, showing a yield of 230,922,298 bushels; next comes the great state of Iowa, and then Missouri, Kansas, Indiana, and Nebraska. The receipts for the year were 62,930,897 bushels as against 59,580,445 for the year 1884; the shipments were 58,805,567 bushels, showing an increase of 5,531,517 bushels over the quantity shipped in 1884. The largest amount in store during the year, was on the 11th of April, when it reached 2,368,559 bushels, and the date of the smallest quantity in store was November 14, when it was reduced to 107,423 bushels. At the close of the year the stock in store was 1,921,998 bushels. The price of No. 2 varied from 34 $\frac{1}{4}$ cents, in January, to 50 cents in May, the average price for the year being about 42 $\frac{1}{2}$ cents per bushel. Damp and wet weather at the maturing season of the crop, resulted in considerable damage to the grain. As a consequence, a large proportion of the receipts were sold by sample for immediate consumption, and were generally distributed throughout the East, Canada taking more than usual. All through the year the demand was good, both from seaboard points and from the interior, illustrating the universal adaptation of this grain as food for man and beast, and that in years of great production the demand correspondingly increases.

The area covered by this extensive crop was 73,130,150 acres, and the home value is estimated at \$635,625,130.

The following is a statement of the highest and lowest prices of No. 2 Corn for twenty-seven years, and of the months in which those prices were realized:

OATS.

The market for Oats has ruled dull, under the influence of the largest crop ever produced in this country, the entire yield aggregating 629,400,000 bushels, grown on 22,783,630 acres. Owing to wet weather at the time of the maturing and harvesting this crop, the quality was inferior; so much so, that in spite of a reasonable, though conservative, conformity to the general character of the crop in reference to inspection, it was difficult to find a car of absolutely sweet Oats. The demand was, however, very fair and general, as the inferiority was not so pronounced as to seriously obstruct sales. A very large proportion of the receipts was sold by sample, and shipped in compliance to a very steady demand. Notwithstanding the large crop, the quantity handled was less than in the preceding year by 2,403,609 bushels, the receipts the past year being 37,678,753 bushels. The shipments aggregate 32,426,462 bushels, as against 34,230,293 bushels during the year 1884, principally accounted for, by the tameness of the speculative market, induced by the prodigious crop. This had an unwarranted effect, for the stock of the previous year was well used up, in consequence of a heavy demand, stimulated by the high price for corn which obtained during a large portion of 1884, and which reached

its culmination in September of that year. Prices for No. 2 Oats ranged from $25\frac{1}{8}$ cents in January to 32 cents in June. Flurries occurred in April, in June, and in July; but in each instance quickly subsided. The average price for the year was $24\frac{1}{4}$ cents, which is not a material variation from the two years immediately preceding. The sample trade in this grain is steadily increasing. Below is a statement of the extreme prices each year for twenty-seven years, showing the month in which such prices were obtained.

RYE.

The receipts of Rye for the year amount to 1,892,760 bushels, which are 1,434,756 less than the quantity received in 1884. The volume of business during the year was small, owing to a partial failure of the crops, a larger home demand than usual, and no incentive in the foreign demand to stimulate all that might have been sent to market. Early in the year the export movement was quite liberal, but Germany and France put a large import duty on Rye, which was virtually a prohibition, and the export business was estopped. The larger portion of the receipts graded below No. 2, and was sold by sample. The lowest sales of No. 2 were made in January, and at $52\frac{1}{2}$

cents, and the highest at 73 cents per bushel in May. Stock in store at the close of the year was 299,377 bushels, and in July it was but about 8,500 bushels. The shipments were 1,216,961 bushels, as against 4,365,757 bushels for the preceding year.

BARLEY.

The general quality and condition of this grain, with reference to the standard of inspection for No. 2, or "regular," and the decided preference on the part of buyers to make their own selections in view of varied demands, have contributed to change the character of this trade, and confine it almost exclusively to selling by sample. This necessitates an intimate and intelligent familiarity with its many features and peculiarities, and its special adaptation to the purposes for which it is used; the defects in some samples are supplemented by excellencies in others, and in that way a standard is arrived at, which for certain uses, is desired. Hence a most critical knowledge of this grain is essential, that justice to the consignor may be secured and the purchaser's needs supplied. The steady growth of the Barley trade on this Exchange, conclusively compliments the soundness, integrity, and ability with which it is managed. In this trade there is very little of speculation, as from its distinctive characteristics that is impracticable.

The receipts for the year amounted to 10,760,127 bushels, as against 7,849,829 bushels in the year 1884; the shipments were 5,583,003 bushels in 1885, as against 4,095,500 bushels in the previous year. Prices for the year were confined to a range, on a given quality, of about 20 cents per bushel, with a general average of sales at about 4 cents less than in 1884. No. 2 sold down to 59 cents and up to 71 cents. Inspection of this grain has little or no conclusive signification, and both buyers and sellers (almost without exception thoroughly competent to pass upon its merits) act upon their individual judgment with a nicety of discrimination which is acquired only by studious experience. Under all the circumstances which attach to the handling of this grain, an inspection which would amount to anything more than a general guide, is impossible. The receipts came from Minnesota, Wisconsin, Iowa, Dakota, Nebraska, and Illinois. It is also noticeable that Utah and Washington Territory have forwarded large quantities to this market during the year. Large shipments were sent to Ohio, Indiana, Pennsylvania, and to the southern states; this business showing a large increase, due mainly to the carefulness and integrity with which eastern orders are executed.

LIVE STOCK AND PROVISION TRADE.

The preëminence of Chicago in this department is universally conceded, not only with regard to the volume of trade, but also with reference to the extensive and minute facilities which are provided. A visit to the "yards" where this business is transacted, and an inspection of the complete system for its prosecution which is there presented, is not only interesting, but conveys an idea of its immensity, which in no other way can be obtained. The "yard" room provided for this business covers 350 acres, 280 of which are in use under plank. The Union Stock Yard Company also owns and operates about ninety miles of railroad track within the yard. In the winter packing season from 22,000 to 25,000 hands are there employed in receiving, preparing, packing, and shipping meat food to all parts of the country, and the world, except France and Germany, which countries insist upon their inhabitants paying exorbitant prices for their inferior "home" hog product, thus enriching the farmer and packer, at the expense of the artisan, mechanic, and city laborer, smothering discontent by assurances of the "unhealthfulness" of the American hog. They however, fail to mention that the German and Frenchman in America, as well as the American and the inhabitants of other countries, thrive upon it, and that the pretext for its prohibition to French and German ports is exploded, exposed, and scientifically refuted by their own authorities.

The total receipts for the year aggregate 9,924,507 head arrived in 214,146 cars, at the rate of about 18,000 carloads per month. The average number of cattle and hogs received per month during the year, is 827,042, equivalent to about 27,568 per day. To provide for this animated and beneficent stream of shipments, required extraordinary resources of ability and capital. Neither were wanting, and every minutest detail is provided for in the prosecution of this great industry, the steady and magnificent growth of which, is its best and just commentary. The receipts were 1,882,258 head more than in the year 1884, though owing to diminished prices the value was \$13,789,678 less, being the smallest valuation since 1880. The growth of this business may be partially realized by the statement, that the value of receipts in 1856 was \$42,765,328, and in the year 1883 \$201,252,772, diminishing to \$173,598,002 in 1885. In 1866 our receipts of Hogs were 482,875, and in 1885 1,797,446. The largest number of Hogs received on any one day was 66,597, on December 5, 1884.

Through the courtesy of Mr. George T. Williams, the able Secretary of the Stock Yards, the following statement is presented, showing the receipts of live stock for seven years :

Years.	Cattle and Calves, Number.	Hogs, Number.	Sheep, Number.	Horses. Number.	Aggregate Value.
1885	1,964,018	6,937,535	1,003,598	19,356	\$173,598,002
1884	1,817,697	5,351,967	801,630	18,602	187,387,680
1883	1,909,167	5,640,625	749,917	15,255	201,252,772
1882	1,607,495	5,817,504	628,887	13,856	196,670,221
1881	1,547,498	6,474,844	493,624	12,909	183,007,710
1880	1,382,477	7,059,355	335,810	10,398	143,057,626
1879	1,215,732	6,448,330	325,119	10,473	114,795,834

The smallest arrivals were in the month of February, and the time of the most liberal receipts in October and November. Prices were very low, indeed the lowest for many years, and are accounted for on general principles, and the relation of the general situation to the large number of interests involved in this far-reaching industry. Quite an impetus was given to the trade early in the year by warlike tendencies in the Old World, and possible serious complications between some of the great European powers. The entrance of American meats into France for the French army, in view of probable contingencies, resulted in filling large orders in this market, one order being so great as to require the slaughtering of 25,000 cattle. With this exception, the export trade was less than in the preceding year. Prices were very low, especially during August, October, and December. The condition of cattle was good, notwithstanding an alarm was incited by unprincipled parties to influence the market at the close of the grazing season. The closing prices of the year were from \$3.50 to \$5.50 for shipping cattle, which were about \$1 less than for the corresponding time in 1884.

The trade in Fresh Beef is constantly extending, owing to unremitting efforts to commend this branch of the business to the confidence and convenience of the consumer; packing and transportation facilities are deemed of essential importance, while the quality of the product is a *sine qua non* in the filling of orders. The number of cattle slaughtered for the dressed-beef, packing, and canning trade during the year, was 1,334,775, exhibiting an increase over that of the year before of 146,621. The annual exhibition of Live Stock in Chicago for the last few years has most favorably affected this market in stimulating the production of the higher grades of cattle and increasing the excellence of our meat food.

The number of Hogs received during the year was very nearly equal to the largest number ever received in this city, and was 6,937,535; the average weight per Hog, 239 lbs., which is about the same as for the year 1884. The severe cold which prevailed early in the year was not favorable to the production of heavy Hogs, though they were fed with-

a generous hand. Prices ranged for the year from \$3 to \$5.35, which were from \$1 to \$2.25 less than those of 1884. In the early part of the year the highest prices prevailed, viz.: \$4 to \$4.75.

The number of Sheep received in the year was 1,003,598, which was 201,968 more than was received in the year 1884, being the largest number ever arrived in any year in this city. A combination of causes, chief among which, was a superabundance of woollen fabrics and large supplies of wool, resulted in rushing Sheep to market, and a consequent depreciation in prices. Early in the year Sheep of inferior kinds were placed upon the market, but values were not reduced. Prices were steady throughout the year, and ranged from \$2 to \$5, including inferior to extra grades.

The Pork packing business was active throughout the year on account of the liberal receipts of Hogs, which in numbers exceeded the receipts of the previous year 1,050,000 head. The entire number of Hogs packed for the year was 4,950,000. The supply for the city packers was somewhat abridged by an eastern demand. The value of Hogs purchased by our packers during the year 1885 is estimated at \$49,485,000. The careful adaptation of pieces in their style, etc., to the peculiarities of different markets, both at home and abroad, is observed. The southern demand has been very good, as the cotton crop provided means to purchase upon a liberal scale. There was missing the usual speculative excitement, which nearly every year has been a prominent feature of this market; as a result, prices have been without violent fluctuations. The highest prices of the year prevailed in February, when pork sold at \$13.35, lard at \$7.10, and ribs at \$6.67½; the lowest prices were reached in the month of October, when pork was sold at \$7.95. The estimated average price for the year is \$10.47½, which is the lowest price for any year since 1879, and with the exception of two years, the lowest for thirteen years. The following table is an exhibit of the export movement of Beef and Hog Product, in pounds, for the preceding four years :

Years.	Fresh Beef.	Salted Beef.	Pork.	Bacon and Hams.	Lard.
1885.....	115,780,830	48,143,711	72,073,468	400,127,119	283,216,339
1884.....	119,093,577	41,398,165	50,564,869	359,651,932	225,950,705
1883.....	116,928,727	46,443,037	67,759,872	423,874,985	277,034,680
1882.....	53,983,730	40,517,648	66,029,915	345,862,163	235,536,658

SEEDS.

Without disparagement to any part of our business, none is characterized by a more faithful and able management than this ; by painstaking, an intelligent familiarity with its details, and a scrupulously

honorable dealing, bordering sometimes on concessions which might not strictly be demanded, this trade is fast growing to great dimensions. Orders are filled with an exceedingly careful fidelity, and in view of the requirements of the markets from which they are sent; by the perfection of the facilities which are at command, an absolutely uniform compliance with an agreed sample is attained. This result is a desideratum, fully appreciated by distant markets, domestic and foreign, which is here more than in any other market assured, and which renders Chicago the Seed market of the country. A most corroborative comment upon this extensive trade, and complimenting the sagacity and mercantile character of both receivers and buyers, is the fact that not a single case of arbitration has arisen from the transactions of the year, in Grass Seeds. It is not surprising, then, that consignor, and distant buyer as well, turn with confidence to Chicago that their respective interests will here receive faithful and intelligent attention. There is evident a very gratifying harmony between consignor and commission merchant, on the one hand, and jobber and distant customer on the other, which so fosters and stimulates the trade, as to insure reasonable profits to all concerned. Under such conditions, normal and healthful results are inevitable, and the continued expansion of this trade must distinguish its activities, while in a large degree it stands aloof from commercial distractions and disasters.

The trade in Timothy Seed has been large and reasonably remunerative, the active demand advancing prices from \$1.22 to \$1.62 from January to May, and to \$1.74 just before the new arrivals. The highest price of the year was attained in September, when it ran up to \$1.78 per bushel. Owing to prevaricating freight phraseology, there has been a manifest inaccuracy in the statement of shipments, which have been very much greater than the official returns indicate; in addition, lake shipments have not all been reported.

The business in Clover Seed has been fair, and prices have ranged from \$4.40 per bushel to \$6 for prime seed, the highest price prevailing in August. The year closes with moderate stocks on hand.

Hungarian and Millet Seeds have been dull throughout the year, and prices low, the year closing with no well defined outlook, though the quantity in the market is quite moderate.

The area under Flax has largely increased in Minnesota, Iowa, Kansas, Nebraska, and Dakota, and the crop of the last year is nearly 11,000,000 bushels. In regions where the surplus of cereals is mostly obtained, low prices have turned attention to the cultivation of Flax with marked success. Dakota and Iowa are the two largest producing states of this seed. The receipts for the past year amounted to 6,770,657 bushels as against 3,679,530 received in the year 1884; the shipments aggregated

3,033,812 bushels, which were 2,533,714 bushels more than during the preceding year. From the early fall until the close of the year, the market was very active at prices ranging from \$1.17 to \$1.26½ per bushel for No. 1. Subsequently, prices declined to \$1.10½, ranging in December from \$1.10¾ to \$1.16½. Low all-rail and ocean freights, induced large exports, amounting to 750,000 bushels early in the season.

HAY.

The valuation of the Hay crop of this country is estimated at \$395,-895,559, produced upon 39,000,000 acres, aggregating about 50,000,000 tons. The year 1885 records the changes in prices at the various seasons of the year which have characterized the trade in preceding years; the highest prices prevail in the months of April, May, and June. Since the new crop was marketed, prices have ruled remarkably steady on tame hay. The receipts of Upland Prairie Hay from Iowa were quite liberal, and larger than ever before, indicating that the high prices of May and June induced the farmers to cut a much larger area of prairie grass than formerly. The quality of tame Hay has not varied materially from that of the preceding year, while the quality of Upland is not equal to that of former years. Marked success has attended the introduction of Prairie Hay into eastern states, and Chicago is gaining in importance as a Hay market, not far from 100,000 tons having been handled during 1885, at an average of about \$11 per ton.

BUTTER AND CHEESE.

The receipts of Butter were liberal, and in spite of low prices, the demand was insufficient for the supply; prevailing low prices made the trade unsatisfactory in the main, though for choice qualities good prices were realized. The excess of supply was felt particularly in the sale of ordinary grades. Prices were about four cents below those of the previous year. Much the same characteristics distinguished the Cheese market, though early in the year the trade was very fair, Cream Cheese selling at 11 to 12 cents; from this point prices rapidly settled until August brought in a good home demand, and sent up prices 2 to 3 cents per pound; this improvement was maintained into the month of November. Illinois, Wisconsin, and Iowa are the great "cheese states," having 904 factories, while New York, Pennsylvania, and Ohio contain but 358. The dairy production of the older western states has been of late greatly stimulated, and the business of South Water street in the fruits of the farm would astonish those whose attention has not been directed to this important department.

LUMBER, COAL, AND SALT.

The trade in Lumber was an improvement over that of last year. The volume of transactions was somewhat less, but the prices were higher. The shipments for the year amounted to 818,474,000 feet of Lumber, and 55,654,000 Shingles, while the receipts were 1,744,892,000 feet of Lumber and 795,248,000 Shingles. The relative size of stock at the centers of trade, and the tendency of a certain line of investments, lead to good prospects for a favorable year in 1886. The stock on hand at the close of the year, of all kinds, aggregates 1,157,069,200 feet.

Coal market was dull, and the profits, by force of sharp competition, an unusually urgent desire to effect sales, and great disturbances in freight rates, were rather small. Stocks at the close of the year are moderate, and our dealers have many reasons to warrant them in looking forward to a more satisfactory market in the immediate future.

There has been a slight increase in the volume of business done in Salt, with a reduction in prices from those of 1884, the average price per barrel being 90 cents, showing total sales amounting to \$1,295,000. The receipts of foreign Salt were larger than before, occasioned by low rates of freight.

DIRECT EUROPEAN SHIPMENTS.

The tonnage shipped direct to Europe was 21,885 less than in 1884, the decrease in part, accounted for by the exports of Butter, Wheat, and Corn. A substantial increase is shown in the exports of Fresh Beef and Flour. Direct trade with foreign ports is destined to an extensive growth.

VISIBLE SUPPLY.

The weekly statement of the Visible Supply of grain continues to receive the approval of the grain markets of the country, and is compiled upon the same basis as before, with the exception of the elimination of the quantity forwarded by rail. The New York statement is arranged upon precisely the same plan, and the trade is no longer perplexed by conflicting statements. The two Exchanges are in honorable accord upon this subject, and, in common, have in view accuracy and dispatch, to which everything else is made subordinate.

TRANSPORTATION.

In times of commercial depression, radical and inherent defects are made apparent, and sometimes prominent. When the business of the country is active, profitable, and in full vigor, such defects produce no serious results, and are not forced upon public attention. During the past year the subject of transportation has had the careful considera-

tion of merchant and legislator, as the experience of the last two years has revealed such inequalities in its administration, and discriminations in its charges, as in numerous instances to thwart enterprise based in any manner upon published rates of freight. There have been, it must be admitted, such diversions of traffic, such activity in the movement of merchandise under losing market quotations, as point unmistakably to exceptional and special understandings with transportation lines, concealed by complicated adjustments, and known only by inference, yet none the less certainly assured. It would undoubtedly be as great a boon to the railway manager as to the merchant, to have a law or system devised which would prevent confusion and uncertainty in rates, provide for a correction of abuses, and arrest demoralization in railway tariffs, which clog the machinery of business, disturb values, and eventually injure all concerned. It is plain that no plan has been, or can be, immediately arranged for the absolute correction of defects in the application of rates of transportation. Such a plan must be the outgrowth of friendly and honorable coöperation and experience, and must be inaugurated by the adoption of a law, with such elasticity in its provisions, as in the hands of an intelligent, broad-minded board of commissioners, could be adapted to a variety of circumstances, and by its operation, work out a result beneficial to the mercantile community and railway company alike. If the solution of this vexed problem is approached in this way, free from antagonizing attitudes, such laws will be gradually perfected as will secure common benefits. No dictatorial policy in any department of business will or should succeed; neither can any proper adjustment obtain, sought for from any narrow or partisan standpoint. In the framing of a law affecting this great industry, reaching into an almost endless variety of interests, ample liberty should be granted for an equitable settlement of difficulties. The importance of this subject to the business of the country cannot be overestimated. The problem is comparatively a new one in this country. About it there is much to learn; a studious application is demanded; coöperation with railway managers should be invited, and the common good secured.

THE HENNEPIN AND ILLINOIS & MICHIGAN CANALS.

For many years this subject has been discussed, and its attending arguments have frequently been presented; the distinctive features of the enterprise, the surveys and plans, together with its estimated cost, were described at length in my last review. I am happy to state that the inauguration of this great work seems near at hand. The bill now pending in Congress providing for the construction of the Hennepin Canal, and the connection of the Great Lakes with the Mississippi

River, is ample in its provisions: it contemplates the acceptance by the general government of the Illinois & Michigan Canal, which extends from the Chicago River ninety-six miles to La Salle, and commits the government to its extension to the Mississippi, and the deepening and enlargement of the present canal. Its completion would require five years of labor, and a total expenditure of \$9,000,000. Its benefit to all sections of the country would be direct and incalculable. Now, while labor is abundant and capital is willing, is the opportune time to commence this beneficent project, in the interest of producer, consumer, and laborer.

I have included several new tables in this report, which I trust will add to its value; those which show the daily movement of grain at prominent markets were commenced in the month of August.

I am under obligations to Messrs. Howard, White & Co., Messrs. Cowles & Ferren, also to state and national statistical departments, as well as to many foreign publications, for much valuable information.

In closing this review, which recalls associations official and personal, I cannot but felicitate myself that in our necessarily frequent intercourse during the discharge of mutual duties and responsibilities, both public and private, nothing has occurred to mar in the slightest degree my pleasing recollections.

Congratulating you, Mr. President, upon the brilliant success of your administration, extending through the eventful years of 1884 and 1885, I have the honor to remain

Very respectfully yours,

GEORGE F. STONE, *Secretary.*

The available investments of the Board are same as last year :

1,050 shares Chamber of Commerce stock, net cost \$78,792 32

In further obedience to the requirements of the rules, we have placed the annual assessment upon each member at \$75, for the year 1886. We deem this amount ample for our wants, and at the same time necessary in order to cover a floating indebtedness incurred in closing up the construction account of the new building, and to meet

the extra current expenses consequent upon the first occupancy of larger and more convenient rooms. But contrary to an opinion circulating among the members, we would state, that the regular expenses of the Board proper, outside of what is known as the "Real Estate" department, have not been as large during the past two years, as for the years immediately preceding, and that the charge of extravagance made against your Directors is disproved by the figures, for the legitimate expenses of the Board were: \$77,333.18, in 1882; and 85,814.58, in 1883; and \$63,805.24, in 1884; and \$74,711.42, in 1885, including the \$25,000 paid on rent of old buildings.

In compliance with the custom of past years, we desire to call your attention to the more important acts of 1885, and to such subjects as we think demand your consideration.

In accordance with our expectation, expressed one year ago, we occupied our new rooms the first of May, and have found them in healthful conveniences all that we anticipated, and although our current annual expenses here must increase as compared with former years in our old quarters, we believe we find compensation in the ease and comfort obtained by our members in the transaction of business.

During the past year 193 privileges of membership have been transferred. Toward the close of the year the selling value of these declined, owing to various causes, principally to quiet business, but in the last few weeks they have again increased in value.

We are pleased to again report that no serious business reverses have fallen upon any of our members during the year.

We cannot as yet report any settlement with the Chamber of Commerce, that will discharge us from the terms of the lease of the room formerly occupied by us. The future of that property is still uncertain and unsettled, and we do not fear that our interests are suffering any by a delay in settlement, although we have been desirous to protect your interests in the matter and dispose of the lease.

In our last report we referred to the proposed plan of checking trades through the Clearing House, and we can now report that the plan has proved all that we anticipated, having met with marked success, and is, we believe, of great benefit to the members; then the Clearing House has become in its double work, a valuable auxiliary to the methods of this Board.

Although a large committee made from the Directors and the floor, have had the revision of the rules in charge, they have not been able to report in full, but several individual amendments have been made during the year, yet the necessity for a thorough revision still exists, and will undoubtedly receive the attention it deserves from this Committee during the coming year.

Shortly after our removal to this building, the "Call Board" was opened in the room prepared for it in the construction of the building, but a wide difference of opinion existed among the members as to the benefit of that method of trading, and after a brief trial the "Call" was abandoned and the room closed; the hall is now occupied by the Chicago Stock Exchange, who have taken a lease of it at a merely nominal rent till the first of May next.

We are pleased to report progress in the control of our market quotation messages; beginning in May, 1884, with 790 accredited correspondents who had applied for these messages in accordance with our rules, there are now nearly 1,300 of such correspondents on the books of the committee having the matter in charge.

Anticipating the inevitable increase of our current expenses that must arise from our more elegant and commodious quarters, we referred in our last annual report to you, to the proposed inquiry to ascertain if our revenues could be increased from any other source than the direct assessment upon the members, and we solicited suggestions from you on this point, but have received none that appear practicable. In estimating the receipts of the Board, a sum was counted upon as coming from the seats of the "Call Room," but in abolishing the "Call" that source of income was lost, and the question presents itself to your body and to our successors, as to what disposition can best be made of this valuable room; it is too valuable for this Board to retain as a hall for the free use for invited bodies to occupy, or for our own use for occasional business purposes, and if it is not to be used as a "Call Room," we think it should be changed into offices for renting.

Early in the past year, the needed arrangements, and the necessary alteration of our rules were made to permit trading in small lots of grain and provisions, and such trading has been conducted to the satisfaction of those who desired it.

Your Committee on Transportation have met the continued complaints of discrimination against Chicago, by some of the railroads in their freight charges, and your Directors have united with the "Freight Bureau" of this city, in their efforts to protect the interests of Chicago, and we have a representation of nine members on the Executive Committee of that body. There will be some expense attending this, but we look to see a more than corresponding benefit to this Board of Trade and this city.

Your Directors wish also to call your attention to the great need of some better facilities for weighing, inspecting, and transferring "through freight," or produce sold here for eastern or foreign points, and shipped from western mills or warehouses, and we would suggest a conference with the different railroads, to ascertain if it be not prac-

licable to maintain some central station, accessible to all the roads, as near to our business as possible, where this work can be done.

Your Committee on Weighing have worked in connection with a committee from the Receivers' Association, to secure a better method than the present one for transferring and weighing grain and millstuffs in the present location of the different railroads, and have endeavored to induce them to introduce the system of weighing by single draft, in "Hopper's scales," all grain and millstuffs transferred by them. The representatives of all the roads except one promised their adoption of the plan at an early day. Your Committee is still pressing the subject, and hope to see it carried into effect speedily, as they believe it to be very important to the trade of Chicago, and they notice that this branch of our business has increased within a few years. In 1876 only 13 per cent of the grain arriving here was not sent to store; in 1880 only 20 per cent was not sent to store, while in 1885 nearly 57 per cent. did not go to store; and your Directors unite in the opinion that it is the duty of this Board to do all in its power to increase the importance of this city as a great and reliable produce-distributing center, and to that end they are of the opinion that this Board of Trade cannot too closely look after every interest affecting the receiving and shipping of cash produce, including the railroads that center here. Those who handle and store the grain and provisions, the system of weighing and inspecting, the conduct of its membership in their transactions with the producer, and with him who buys on this market, and all legislation, should recognize the object for which this Board was originally established.

Serious complaint still exists, and none the less serious because of its long continuance, concerning the insecurity of property in inland transit, and we believe that the equities of business and trade demand that a bill of lading should show the amount of grain or millstuffs received by the carrier, and which should be faithfully accounted for by him.

For some years past there has been a growing disposition on the part of transportation companies to insert in their bills of lading for both domestic and foreign shipments conditions, stipulations, and exceptions exempting themselves as much as possible from the just and reasonable liabilities imposed upon them by statute as common carriers, and this evil had become so onerous and detrimental to commercial interests that action became necessary on the part of the leading exchanges of this country and England.

The New York Produce Exchange, after a lengthy and exhaustive discussion of the subject with the Liverpool Underwriters' Association, and the Liverpool Steamship Owners' Association, adopted, some

months ago, an Ocean Export Bill of Lading, divested of most of the objectionable features of the old form, and containing such reasonable conditions and stipulations as have been accepted by the shipping and insurance interests, and have made that bill of lading the basis of all contracts made upon their Exchange. The New York Produce Exchange asked the coöperation of this body in this matter, and last April a Special Committee of this Board was appointed to consider the subject, and upon their recommendation we have adopted the bill of lading of the New York Produce Exchange as the basis of all contracts made upon this Exchange for foreign freights. The railway and other transportation companies are now preparing new forms of export bills of lading, in compliance with this rule.

Your Special Committee have also had several conferences with a similar committee of the Lake Carriers' Association, with a view to agreeing upon a uniform lake, lake and rail, and lake and canal bill of lading conformable to law and equity, and such progress has been made that, by the opening of lake navigation next spring, it is confidently expected that a form of bill of lading for the lake traffic shall have been agreed upon that will prove satisfactory alike to the shipper, the carrier, and the insurer.

It is proper to say that your Committee have had the cordial coöperation of the Lake Carriers' Association in their efforts to accomplish this desirable object.

During the past year we have been invited to send delegates to conventions at Atlanta, New Orleans, and St. Paul, when the subject of better improvement of our internal commercial ways has been discussed. We have been represented at these meetings, for we believe that this Board and this city are largely interested in this idea of cheap transportation, and that we should heartily join hands with our western neighbors in efforts to secure lowest possible rates by enlarging existing waterways, and opening up new ones, which shall connect the Mississippi River with the great lakes, as we believe that direct communication by water between Chicago and the most available point on the Mississippi River would reduce the freight to Chicago fully six cents per bushel on grain from western points, thus benefiting the producer to that extent.

By vote of the Board, taken November 11, "The Board of Real Estate Managers" was abolished, thus turning the care of the entire building over to the Directors, and two of this number have been appointed a "Committee on Real Estate," with the expectation of taking a third one from the incoming class of our body.

Twelve of our membership have been removed by death during 1885, and, although others step into their places, thus keeping the ranks full,

we still miss their familiar faces, and pause to drop a tribute of respect to their memory. Their names will be found on one of the first pages of the annual report.

General business seems gradually to be reviving in all departments of trade, and in all parts of our country, but more especially in the West. Bountiful crops in all sections of the food-producing portions of the world have placed the supply above the demand, and consequent low prices prevail in provisions and breadstuffs, but the agricultural population of our land are fast learning the benefits arising from a more varied production, and not confining their efforts to wheat and corn so exclusively.

Respectfully submitted by order of, and adopted by, the Board of Directors.

E. NELSON BLAKE, *President.*

Up to 1856 no record was kept of distinctly immigrants, separated from arrivals of alien passengers.

Of the number of immigrants arrived during the year ended June 30, 1885, 48,178 were from England and Wales; 51,567 from Ireland; 9,194 from Scotland, 108,939 from Austria; 11,164 from Germany; 123,293 from Italy; 25,768 from Norway and Sweden, and 96,663 from all other countries.

The number of immigrants arrived during the year was 122,013 less than the immigration during the preceding fiscal year, and 401,171 less than during the year ending June 30, 1882, the year of the greatest immigration.

In consequence of defective Congressional legislation, it is impracticable to collect fully and accurately the statistics of immigrants arriving in the United States from the Dominion of Canada and from Mexico, and they are, therefore, omitted from this statement.

(a) Estimate of London "Times." (b) Crop of average year. (c) In the case of Bavaria, 1863; and in that of Prussia, 1867.
 * These figures may properly be regarded as a close approximation to the average wheat product of Europe for a period of several years ending with 1873, and are the approved result of systematic investigation inaugurated by the International Statistical Congress convened at St. Petersburg in 1872.
 The crop of Holland is 5,436,738 bushels, and of other European countries, 567,500 bushels, making the total European wheat production for 1885, as arrived at from official and reliable unofficial sources, 1,218,706,603 bushels.

Some of the less prominent European countries do not possess the best facilities for accurate recent statistical information, yet the figures obtained are confidently presented as worthy of credit.
 The wheat crops of all other countries, including the United States, Canada, India, Australasia, and Asia Minor, aggregate 881,325,595 bushels, making a grand total of 2,100,032,225 bushels.

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857 inclusive, a few counties returned only the aggregates; hence the details of Real Estate and Personal Property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law; since 1868 the valuations are as equalized. The total valuations in each of the several years are entirely correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, but especially that of Railroad Property.

The State Debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1872 to 1879, as it stood December 1.

NOTE.—From 1851 to 1862, inclusive, a Lamp Tax of half a mill to two mills was levied on certain portions of the city, and is included in the above Total Tax. The city debt as noted represents it as it stood on February 10 in 1852 to 1854, inclusive; on February 1 in 1855 to 1861, inclusive; on April 1 in 1862 to 1874, inclusive; and on December 31 since 1874. Valuations for 1875 to 1883, inclusive, are by the County assessment, as equalized by the State Board of Equalization, and in some of these years do not include railroad property. City tax on railroad property for 1882 and 1883, something over \$100,000 for each year, not included in the above Total Tax.

(A) The figures of production for 1872, 1873, and 1874, are taken from the New York Commercial and Financial Chronicle; after 1874, from reports of the National Cotton Exchange of America. The amount placed opposite each fiscal year in the column of production is the crop grown during the preceding calendar year, and comprises port receipts, overland shipments to northern mills and southern consumption, during the year ended August 31.

(B) The net weight of bales is stated on the authority of Mr. Thomas Ellison, of Liverpool, and the gross weight for the year, prior to 1878, on the authority of Mr. J. R. Dodge, Statistician of the Department of Agriculture, and after 1877, as reported by the National Cotton Exchange.

Previous to 1871 no reliable returns were made of the Summer Packing; it was, however, inconsiderable.

For the *calendar* years of 1884 and 1885 the Packing in Chicago was *approximately* as follows:

1884.	January 1 to March 1.....	685,000	
	March 1 to November 1.....	1,900,000	
	November 1 to December 31..	1,454,000	Total 4,039,000.
1885.	January 1 to March 1.....	960,000	
	March 1 to November 1.....	2,463,000	
	November 1 to December 31..	1,625,000	Total 5,048,000.

RULE VII.

The word “new” shall be inserted in each certificate of inspection of a newly harvested crop of Oats until the 15th of August, of Rye until the 1st day of September, of Wheat until the 1st day of November, and of Barley until the 1st day of May of each year. This change shall be construed as establishing a new grade for the time specified, to conform in every particular to the existing grades of grain, excepting the distinctions of “new” and “old.”

RULE VIII.

All grain that is warm, or that is in a heating condition, or is otherwise unfit for warehousing, shall not be graded.

RULE IX.

All inspectors shall make their reasons for grading grain, when necessary, fully known by notations on their books. The weight alone shall not determine the grade.

RULE X.

Each inspector is required to ascertain the weight per measured bushel of each lot of Wheat inspected by him, and note the same on his book.

Section 138. “Any person who shall assume to act as an Inspector of Grain, who has not first been so appointed and sworn, shall be held to be an impostor, and shall be punished by a fine of not less than \$50 nor more than \$100 for each and every attempt to so inspect Grain, to be recovered before a Justice of the Peace.

“Any duly authorized Inspector of Grain who shall be guilty of neglect of duty, or who shall knowingly or carelessly inspect or grade any Grain improperly, or who shall accept any money or other consideration, directly or indirectly, for any neglect of duty, or the improper performance of any duty, as Inspector of Grain, and any person who shall improperly influence any Inspector of Grain in the performance of his duties as such Inspector, shall be deemed guilty of a misdemeanor, and, on conviction, shall be fined in a sum of not less than \$100 nor more than \$1,000, in the discretion of the Court, or shall be imprisoned in the county jail not less than three nor more than twelve months, or both, in the discretion of the Court.”

The said Chief Inspector, and all persons inspecting Grain under his direction, shall in no case make the grade of the Grain above that of the poorest quality found in any lot of Grain inspected, when it has evidently been “plugged” or otherwise improperly loaded for the purpose of deception. Wheat which has been subjected to “scouring” or to any process equivalent thereto, shall not be graded higher than No. 3.

All persons employed in the inspection of Grain shall report all attempts to defraud the system of Grain inspection as established by law. They shall also report to the said Chief Inspector, in writing, all instances where warehousemen deliver, or attempt to deliver, Grain of a lower grade than that called for by the warehouse receipt. They shall also report all attempts of receivers or shippers of Grain to instruct or in any way influence the action or opinion of the Inspector, and the Chief Inspector shall report all such cases to the Commissioners.

HIGHWINES.

The following table indicates the current prices of Highwines for each week during the year 1885. The actual sales of Highwines in Chicago are quite restricted, but the quotations form a recognized standard, upon which are based prices for all kinds of Distilled Spirits, including Alcohol. Manufacturers of Vinegar and Rectifiers are almost the sole buyers of Highwines.

LEGISLATIVE ACT TO INCORPORATE
THE
BOARD OF TRADE, CHICAGO.

*Be it enacted by the People of the State of Illinois,
represented in the General Assembly:*

SECTION 1. That the persons now composing the Board of Trade of the City of Chicago are hereby created a body politic and corporate, under the name and style of the "BOARD OF TRADE OF THE CITY OF CHICAGO," and by that name may sue and be sued, implead and be impleaded, receive and hold property and effects, real and personal, by gift, devise, or purchase, and dispose of the same by sale, lease, or otherwise; said property so held not to exceed at any time the sum of two hundred thousand dollars; may have a common seal, and alter the same from time to time, and make such Rules, Regulations, and By-Laws from time to time as they may think proper or necessary for the government of the corporation hereby created, not contrary to the laws of the land.

Corporate title.

Limit of property.

Seal.

Power to adopt Rules, Regulations, and By-Laws.

SEC. 2. That the Rules, Regulations, and By-Laws of the said existing Board of Trade shall be the Rules and By-Laws of the corporation hereby created, until the same shall be regularly repealed or altered; and that the present officers of said Association known as the "Board of Trade of the City of Chicago," shall be the officers of the corporation hereby created, until their respective offices shall regularly expire, or be vacated, or until the election of new officers according to the provisions hereof.

Present Rules, Regulations, and By-Laws to govern until duly changed.

Officers.

SEC. 3. The officers shall consist of a President, one or more Vice-Presidents, and such other officers as may be determined upon by the Rules, Regulations, or By-Laws of said corporation. All of said officers shall respectively hold their offices for the length of time fixed upon by the Rules and Regulations of said corporation hereby created, and until their successors are elected and qualified.

Rules,
Regulations,
and By-Laws.

SEC. 4. The said corporation is hereby authorized to establish such Rules, Regulations, and By-Laws for the management of their business, and the mode in which it shall be transacted, as they may think proper.

Manner of
holding
elections.

SEC. 5. The time and manner of holding elections and making appointments of such officers as are not elected, shall be established by the Rules, Regulations, and By-Laws of said corporation.

Power to admit
and expel.

SEC. 6. Said corporation shall have the right to admit or expel such persons as they may see fit, in manner to be prescribed by the Rules, Regulations, and By-Laws thereof.

Committees
of Arbitration
and Appeals.

SEC. 7. Said corporation may constitute and appoint Committees of Reference and Arbitration, and Committees of Appeals, who shall be governed by such rules and regulations as may be prescribed in the Rules, Regulations, or By-Laws for the settlement of such matters of difference as may be voluntarily submitted for arbitration by members of the Association, or by other persons not members thereof; the acting chairman of either of said committees, when sitting as arbitrators, may administer oaths to the parties and witnesses, and issue subpoenas and attachments, compelling the attendance of witnesses, the same as justices of the peace, and in like manner, directed to any constable to execute.

Executions
upon awards.

SEC. 8. When any submission shall have been made in writing, and a final award shall have been rendered, and no appeal taken within the time fixed by the Rules or By-Laws, then, on filing such award

and submission with the Clerk of the Circuit Court, an execution may issue upon such award as if it were a judgment rendered in the Circuit Court, and such award shall thenceforth have the force and effect of such a judgment, and shall be entered upon the judgment docket of said court.

SEC. 9. It shall be lawful for said corporation, Bonds. when they shall think proper, to receive and require of and from their officers, whether elected or appointed, good and sufficient bonds for the faithful discharge of their duties and trusts; and the President or Secretary is hereby authorized to administer such oaths of office as may be prescribed in the By-Laws or Rules of said corporation. Said bonds shall be made payable and conditioned as prescribed by the Rules or By-Laws of said corporation, and may Suits upon bonds. be sued and the moneys collected and held for the use of the party injured, or such other use as may be determined upon by said corporation.

SEC. 10. Said corporation shall have power to appoint one or more persons, as they may see fit, to Inspectors, gaugers, and weighers. examine, measure, weigh, gauge, or inspect flour, grain, provisions, liquor, lumber, or any other articles of produce or traffic commonly dealt in by the members of said corporation; and the certificate of such person or inspector as to the quality or quantity of Certificates, evidence of quantity, grade or quality. any such article, or their brand or mark upon it, or upon any package containing such article, shall be evidence between buyer and seller of the quantity, grade, or quality of the same, and shall be binding upon the member of said corporation, or others interested, and requiring or assenting to the employment of such weighers, measurers, gaugers, or inspectors; nothing herein contained, however, shall compel the Employment of appointees not obligatory. employment by anyone, of any such appointee.

RULES AND BY-LAWS

OF THE

BOARD OF TRADE OF THE CITY OF CHICAGO.

IN FORCE MARCH 1, 1886.

OBJECTS.

The objects of the Association are: To maintain a Preamble. Commercial Exchange; to promote uniformity in the customs and usages of merchants; to inculcate principles of justice and equity in trade; to facilitate the speedy adjustment of business disputes; to acquire and to disseminate valuable commercial and economic information, *and, generally*, to secure to its members the benefits of coöperation in the furtherance of their legitimate pursuits.

In accordance with the franchises conferred by its Charter, and to accomplish the objects sought by the Association in its organization,

THE BOARD OF TRADE OF THE CITY OF CHICAGO has adopted, for its direction and government, the following Rules and By-Laws:

GENERAL RULES.

RULE I.

GOVERNMENT AND ELECTIONS.

SECTION 1. The government of the Board of ^{Government of the Association.} Trade of the City of Chicago, and the control and management of its Real Estate (including all of the authority and power heretofore vested in the Board of Real Estate Managers), are hereby vested in a ^{How vested.} President, two Vice-Presidents and fifteen Directors, who, including the President and Vice-Presidents, shall be known as the Board of Directors, all of ^{Board of Directors. Qualifications.} whom shall have been members of the Association for at least one year, next preceding their election. The President, one Vice-President, and five Directors, shall be elected annually. The President shall hold his office for the term of one year, or until his ^{Term of office.} successor is elected and qualified; the Vice-Presidents, in like manner, shall hold their offices for the term of two years, and the Directors, in like manner, for the term of three years. Ten members of the ^{Quorum.} Board of Directors shall constitute a quorum for the transaction of business, but a less number may adjourn from time to time, to any fixed date preceding the next regular meeting of the said Board.

SEC. 2. There shall also be elected by the mem- ^{Committees of Arbitration and Appeals.} bers of the Association a Committee of Arbitration and a Committee of Appeals, consisting of ten members each, who shall hold their respective offices ^{Term of office.} for the period of two years. Five members of each committee shall be elected annually. The qualifica- ^{Qualifications.}

tions for election to either of these committees shall be the same as for the office of Director. No person shall, at the same time, be a member of both committees.

Annual
election.

SEC. 3. The annual election for all elective officers not otherwise provided for, shall be held in the Exchange Hall on the first Monday after the second day of January in each year, between the hours of ten o'clock A.M. and two o'clock P.M., and all voting shall be by ballot. The official term of all officers shall commence on the Monday succeeding their election.

Commence-
ment of official
term.

Requirements
of an election.

SEC. 4. For President and Vice-Presidents, a majority of all the votes cast shall be necessary to a choice; but for all other elective officers, a plurality shall elect.

Failure to elect.

SEC. 5. In case of failure to elect any officer voted for on the first trial, another election, in like manner, shall be held on the succeeding day, and if there shall again be a failure to elect, then, upon a third trial, held in like manner, on the day following, a plurality shall elect.

Subsequent
trials.

Failure to elect,
and vacancies.

SEC. 6. If from any cause an election of officers is not had at the regular annual election, or in case of the death, resignation, or removal of the President, either of the Vice-Presidents, Directors or members of either of the committees of Arbitration or Appeals, it shall be in the power of the Association to fill such vacancies for the remainder of the official term at any regular or special election thereafter; *provided*, notice of said special election shall have been announced on 'Change at least three days immediately preceding such election.

Notice, how
published.

Tellers of
election.

Duties.

SEC. 7. It shall be the duty of the President, prior to any election to be held by the Association, to appoint or cause to be appointed a sufficient number of tellers, who shall have charge of the ballot boxes and poll lists of the Association, and who shall receive consecutively, and place the same in

the ballot box, all ballots of members who shall be in good and regular standing, who shall have paid all dues and assessments. They shall keep a record of all members voting, and opposite each name shall place the number of the ballot deposited by said member. Three of the tellers shall constitute a Quorum. quorum for receiving and recording the votes. No ballot box shall be opened, nor shall any votes be counted, except in the presence of at least four of their number. They shall make all returns in writing to the President of the Association, duly signed Returns in writing. by at least four of their number, and the Secretary shall preserve all the ballots for the period of at Preservation of ballots. least one month, for further examination, if the same shall be ordered by the Board of Directors, to May be subsequently examined. verify the correctness of the returns of said tellers.

SEC. 8. In the hearing or trial of any case or controversy before the Board of Directors, or before any committee of the Association, no Director and no member of any such committee shall serve or act in such hearing or trial who has any financial interest or concern in the result of such hearing or trial, or who shall be a business partner of any party thus interested. Disqualifications of Directors or members of committees.

RULE II.

DUTIES OF THE PRESIDENT.

SECTION 1. It shall be the duty of the President to act as general executive officer of the Association Executive powers. and of the Board of Directors, respectively; to preside at all meetings of either of these bodies, and to To act as presiding officer. direct the proceedings of each in accordance with the Rules, By-Laws, and Rules of Order governing the same; he shall have power to call special meetings of the Board of Directors, and of the Association; and To call special meetings. upon the written request of twenty-five members, he

Object to be stated.	shall call special meeting of the Association, which shall be done by causing notice of the same to be publicly announced on 'Change; <i>provided</i> , such request shall state the object for which such meeting is to be called, and is made at least three business days preceding the said meeting.
To preserve order in the Exchange Room.	SEC. 2. It shall be the duty of the President to preserve order and proper business decorum in the Exchange Rooms of the Association during all business hours; and in case any member or other person shall be guilty of any disorderly, boisterous, or offensive conduct while in the Exchange Rooms, he shall for that offense be suspended from the privilege of admission to said rooms for such time as may be determined by the President, subject, however, to appeal to the Board of Directors; but pending such appeal the suspension shall not be enforced.
Penalty for disorderly conduct.	SEC. 3. It shall be the duty of the President to temporarily fill any vacancy which may occur in any appointive office of the Association, and to appoint all committees whose appointment is not otherwise provided for.
Power to fill vacancies and to appoint committees.	

RULE III.

VICE-PRESIDENTS — DUTIES.

First and second Vice-Presidents.	SECTION 1. The Vice-President serving upon the last year of his official term shall be the first Vice-President, and the Vice-President serving upon the first year of his official term shall be the second Vice-President. It shall be the duty of the Vice-Presidents, respectively, in this order, to perform the duties of the President, in case of his absence or disability.
Respective duties.	

RULE IV.

POWERS AND DUTIES OF THE BOARD OF DIRECTORS.

SECTION 1. All the business and financial concerns of the Association shall be managed and conducted (in accordance with the Charter, Rules, Regulations, and By-Laws of the Association) by or under the direction of the Board of Directors.

Business and financial concerns, how managed.

SEC. 2. The Board of Directors shall, on the Tuesday succeeding each annual election, or as soon thereafter as may be practicable, appoint a Secretary, an Assistant Secretary, a Treasurer and such Inspectors, Gaugers, Weighers, Measurers, and other officers, clerks, assistants, and employes as they may consider necessary for the purposes of the Association, and they may establish such regulations for the direction and government of such appointees as they may think proper ; and may fix their compensation, and determine by whom the same shall be paid. The term of office of all such appointees shall commence on the Tuesday succeeding their appointment, or at such other time as the Board of Directors may designate, and shall continue for one year, or until their successors are appointed and assume their duties ; but all such appointments shall be revocable at the will and pleasure of the said Board.

SEC. 7. When any member of the Association has failed to comply promptly with the terms of any business contract or obligation, and has failed to equitably and satisfactorily adjust and settle the same ; or when any member has failed to promptly comply with and fulfill the award of any Committee of Arbitration or Committee of Appeals, made in conformity with the Rules, Regulations, and By-Laws of the Association, he shall, upon admission or proof of such delinquency before the Board of Directors, be by them suspended from all privileges of the Association until all his outstanding obligations to members of the same shall have been adjusted and settled, when he may, upon application, be rein-

stated. Notice of all applications for relief from suspension, under the provisions of this section, shall be posted upon the bulletin of the Exchange for at least one week prior to the hearing of any such application by the Board of Directors, when, if no further just claims shall be filed against the said applicant, he may be so reinstated ; and if the Board of Directors shall be satisfied that such failure was merely from financial inability or misfortune, such member having given satisfactory evidence that he has so adjusted or settled such outstanding obligations, *shall* be reinstated ; and such reinstatement, in either case, shall thereafter serve as a bar to any further discipline by the Association, on account of any claims maturing at a date prior to the reinstatement of the said applicant.

charges; whereupon the member thus implicated shall be notified to appear before the Board of Directors in manner as provided by Section 14 of this rule, and if found guilty the said member shall be suspended or expelled, as hereinbefore provided. Punishment, if sustained.

SEC. 17. In investigations before the Board of Directors, or before any committee of the Association, no party shall be allowed to be represented by professional counsel. Professional counsel not allowed.

SEC. 18. When a member against whom are pending no complaints or charges preferred by a member of the Association, or who is not under sentence of suspension, shall have been duly discharged from his legal responsibilities or debts by a court of bankruptcy, he shall not thereafter be liable to discipline on account of such obligations; *provided*, the institution of proceedings in bankruptcy shall in nowise affect the action of the Board of Directors in matters of discipline, brought before said Board before a final discharge in bankruptcy shall have been granted; nor shall a discharge in bankruptcy affect subsequent proceedings, in the way of discipline, before said Board, for immoral or dishonest transactions, occurring prior to said discharge. Discharge in bankruptcy. Proceedings in bankruptcy. Subsequent proceedings.

SEC. 19. It shall be the duty of the Board of Directors, as occasion may require, to fix and establish standards of grades or qualities for Flour, Grain, Provisions, Liquors, Lumber, and any other articles or commodities dealt in by the members of the Association; and the certificate of any Inspector, Weigher, Measurer, or Gauger, appointed by the said Board, as to the quality or quantity of any such articles, or his brand or mark upon it, or upon any package containing such articles, shall be evidence between buyer and seller of the quality, grade, or quantity of the same, and shall be binding upon the members of the Association, or others interested or requiring or assenting to the employment of such Inspectors, Gaugers, Weighers, or Measurers. The Board of Directors shall provide an efficient corps of market reporters, whose duty it shall be, under such regulations as may be prescribed for their government, to ascertain the current market prices of such commodities as are dealt in by members of the Association, during the hours for trading prescribed by these Rules, the reporting of which may be desired by any considerable number of correspondents, and also all changes which may occur in the same from time to time; such reports to be promptly communicated by telegraph to such approved correspondents in the city of Chicago or elsewhere, as may desire the same, and are willing to pay the necessary charges for compiling and transmitting them by telegraph under such arrangements as may be made by the Board of Directors with any telegraph company for the performance of the service of transmission. The forwarding of such reports to any particular individual, firm, or corporation shall be only on the condition that it is an accommodation service, in which the Board of Trade assumes no responsibility beyond reasonable care in their compilation, and one that may be performed at the pleasure of the Board, or if performed may be discontinued or withheld, with or without previous notice. Any individual, firm, or corporation before being supplied with the reports herein provided for, shall make application for the same in such form or manner as may be authorized by the Board of Directors, which application shall be approved by the Board of Directors or by a committee appointed by it for that purpose, before any reports are forwarded to the applicants. A list of all correspondents to whom such reports are sent shall be kept on file in the office of the Secretary of the Board, and shall be subject to the inspection of any member desiring to do so.

SEC. 21. It shall be the duty of the Board of Directors, upon the nomination of the President, to

appoint such Standing Committees from their own number as they may deem necessary. The Inspection Committees, for the purpose of having the proper branches of trade represented, may be selected in part or wholly from the other members of the Association. All such committees, however, shall be fully under the control of the said Board of Directors. The said Board of Directors shall, in like manner, appoint all delegates to the National Board of Trade; and all representatives to other deliberative gatherings in which the Association may be entitled to a voice, and in which it may desire a representation; and such delegates and representatives may be appointed wholly or in part from the membership of the Association not members of the Board of Directors.

SEC. 22. The Board of Directors may employ such legal advice and assistance as they may deem necessary for the purposes of the Association.

SEC. 23. In case of absence or disability of the President and both Vice-Presidents, it shall be the duty of the Board of Directors to elect from their number a temporary chairman, who, in addition to his duties as Chairman of the Board of Directors, shall also temporarily perform all other duties devolving upon the President.

SEC. 24. The Board of Directors shall have power to call special meetings of the Association upon such notice and for such purposes as they may deem proper. All calls for special meetings of the Association shall state the specific object of such meetings, and no other business than that for which a special meeting was called shall be considered at any such meeting, except by unanimous consent.

SEC. 25. In case any member of that body shall absent himself from six consecutive regular meetings of the Board of Directors, without having been previously excused, or without communicating to the President, in writing, a good and sufficient excuse

SECTION 1. The Secretary, under the direction and control of the Board of Directors, shall keep a journal of the proceedings of the Association; take charge of the seal, books, papers, and property belonging to the Association; keep an account of the imports and exports of the city; collect and record valuable statistical information pertaining to the commercial, mercantile, and manufacturing interests of the city of Chicago, and post the same on 'Change, daily; and on or about the first of January in each year he shall make to the Association a full report of the business of the city for the preceding year, ending December 31, embracing such other information in his possession, as may be of interest to the members. He shall furnish to the Chairman of every special committee a copy of the resolutions whereby such com-

mittee shall have been appointed, and, under the direction of the President, he shall give notice of any meetings of the Board of Directors or of the Association. He shall conduct the correspondence of the Association, and read such records or papers as the presiding officer may direct; shall attend meetings of Committees of Arbitration or Appeals, and of the Board of Directors, and keep an official record of their proceedings, give notices when their services are required, issue the necessary notices and papers to parties, and deliver copies of all awards or findings. He shall collect all moneys due to the Association for assessments, fines, fees, or otherwise, and pay the same to the Treasurer; shall keep his office open during usual business hours; shall see that the rooms and property of the Association are kept in good order, and shall perform such other duties as the Board of Directors may from time to time direct.

SEC. 2. It shall be the duty of the Secretary to furnish to all inspectors, gaugers, weighers, and measurers, appointed by the Board of Directors, official certificates of their appointment, bearing the signatures of the President and Secretary and the seal of the Association. Such certificate shall specify their duty and the time for which they are appointed, and also that such appointments are revocable at the will and pleasure of said Board.

SEC. 3. The Assistant Secretary shall perform such duties pertaining to the office of the Secretary as the Directors or the Secretary shall order, and in the temporary absence or disability of the Secretary shall perform the duties of the Secretary.

COMMITTEES OF ARBITRATION AND APPEALS.

Duties of Committee of Arbitration.	SECTION 1. It shall be the duty of the Committee of Arbitration to hear and determine all cases of disputed claims voluntarily submitted for their adjudication by members of the Association. All evidence in such cases shall be taken under oath or affirmation, except documentary evidence, which shall be sworn to, if demanded by either party and the committee decide it to be necessary, and shall be duly recorded. In all such adjudications the committee shall construe all Rules, Regulations, and By-Laws of the Association as being designed to secure justice and equity in trade; and all awards or findings shall be made in conformity therewith.

Payment of annual assessments by a member, while under suspension, shall not be construed as in any way affecting such suspension.

RULE XI.

MESSENGERS.

Conditions.

Privileges of
messengers.

SECTION 1. The Board of Directors shall be authorized, under such restrictions, regulations, and limitations as they may deem proper, to grant admission to the Exchange Rooms to messengers for members, such messengers not to be allowed to transact any business beyond communicating with their principal, and not to remain longer than is necessary for that purpose.

RULE XII.

VISITORS.

Introduction.

Restrictions.

SECTION 1. Visitors may be introduced to the Exchange Rooms upon such terms and for such time as the Board of Directors may from time to time determine. No person holding a visitor's ticket shall be permitted to negotiate or transact any business in the Exchange Rooms. For any violation of this rule the privilege of visiting the rooms may be forfeited.

THE FOLLOWING IS THE TEXT OF SECTION 1 OF RULE XIV, AS
AMENDED MAY 12, 1886:

RULE XIV.

SECTION 1. A member of the Association may act as a broker only as between other members. A broker shall reveal the name of his principal when a transaction is made, if demanded; otherwise he may not be considered and treated as a broker, but as a principal.

RULE XIII.

COMPLIMENTARY TICKETS.

SECTION 1. The Board of Directors may authorize ^{Under control of Board of Directors.} the issue of complimentary tickets of admission to the Exchange Rooms to such persons as they may designate; but no person holding such a ticket shall ^{Restrictions.} be entitled to vote, or to transact any business in the Exchange Rooms, except such as may be incident to the business on account of which the ticket was issued.

RULE XIV.

BROKERS; AND COMMISSION RATES.

SECTION 1. Any person claiming to act as a broker ^{Duties and responsibilities.} shall be required to name his principal at the time the trade was made, if demanded; or, failing to do so, shall thereafter be held responsible for such trade, at the option of the party with whom he shall have made the same, and shall also be held liable for the acceptance of such trade by his principal.

SEC. 2. In case a member of the Association shall ^{Responsibility on trades made for parties not members of the Board.} by himself, or through any person acting as a clerk for him, make trades for or give the name of a corporation or of any person or firm not a member of the Board of Trade as the principal on any trade or contract, such member shall be held liable both for the acceptance of the same by the alleged principal, and for the faithful execution of the same under the rules of the Board of Trade by such principal.

SEC. 3. The following rates of commission charges ^{Rates of commission on consignment.} for receiving, selling and accounting for the various kinds of property herein named, being just and reasonable, are declared to be the established minimum rates of commissions governing the members of this

	Association so far as relates to the receiving, selling, and accounting for the property named, viz.:

DEPOSITS TO SECURE THE FULFILLMENT OF TIME CONTRACTS.

Protection to purchasers. SECTION 1. On time contracts purchasers shall have the right to require of sellers, as security, a deposit of ten (10) per cent based upon the contract price of the property bought, and further security, from time to time, to the extent of any advance in the market value above said price. Sellers shall have the right to require as security from buyers a deposit of ten (10) per cent on the contract price of the property sold, and, in addition, any difference that may exist or occur between the estimated legitimate value of any such property and the price of sale. All securities shall be deposited, either with the Treasurer of the Association or with some bank duly authorized by the Board of Directors to receive such deposits; *provided*, such deposits shall not be made with any bank or banks to which the party calling for the said security shall expressly object, at the time of making such call; but in such case the

accordance with the decision of said committee, and such order shall be a sufficient warrant to the party holding the deposit to pay the same in accordance with such order. In case any member neglects or refuses to indorse a certificate of deposit to the party entitled to receive the money thereupon when all contracts upon which the deposit is applicable are settled, and all money due upon such contracts has been paid, he shall be liable to a penalty of one per cent per day on the amount of such certificates, for every day such refusal or neglect is continued; and for refusal to promptly pay such penalty the party may upon due complaint be suspended from all privileges of the Board until the same is paid. In case it should occur that by reason of changes in the market, or of delivery upon, or the settlement of a portion of the contracts upon which security has been deposited and to which such security is properly applicable under this rule, that a larger sum remains on deposit than is contemplated by Section 1 of this rule upon then existing unadjusted contracts between the parties, and either party to such contract should refuse to release such excess of deposit, the President of the Board is authorized, upon a representation of the facts, and admission or proof that such excess ought to be released, to order such release, and payment to be made to the party to whom it rightfully belongs, by the indorsement of an order to that effect on either the original or duplicate certificate or certificates issued for such deposits; *provided*, in case of such disagreement no surrender of the deposit shall be ordered pending any arbitration touching the rights of the parties under the said contract or contracts, or in case the party refusing to adjust the dispute shall signify his willingness to submit the matter to arbitration.

SEC. 7. In determining the value of property under this rule, its value in other markets, or for manufacturing or consumptive purposes in this mar-

ket, together with such other facts as may justly enter in the determination of its value, shall be considered, irrespective of any fictitious price it may at the time be selling for in this market. Such value, for the purposes of this rule, in case of disagreement, shall be determined by the Board of Directors, and communicated to the parties in interest through the President or Secretary.

RULE XXI.

REGULAR DELIVERIES.

SECTION 1. All deliveries upon contracts for grain or flax seed unless otherwise expressly provided, shall be made by tender of regular warehouse receipts, which receipts, except in the case of flax seed, shall have been registered by an officer duly appointed for that purpose. All such warehouse receipts shall be made to run five days from date of delivery, on regular or customary storage charges; which regular or customary charges shall follow such warehouse receipts, and be chargeable upon the property covered by the same, and shall be issued by such houses as are in good credit, are conveniently approachable by vessels of ordinary draft, have customary shipping facilities, and are, in other respects, conformable to such requirements as may be prescribed by the Board of Directors.

The party holding the property shall, however, notify the party to whom he delivered the original delivery notice, before 2 o'clock of the same day of the default, if the delivery notice was delivered before 10 o'clock A.M.; or before 4 o'clock P.M., if the delivery notice was delivered between 1:15 and 1:55 o'clock P.M.; such notice of default to be in writing; and each purchaser receiving said notice of default shall in turn deliver the same, without delay, to the party to whom he passed the original notice of proposed delivery. All expenses and risk of carrying property defaulted on, including a commission of one-quarter of one cent per bushel on grain, and one-quarter of one per cent on the market value of provisions, shall be payable to the party required to make resale, by the party to whom he had the property sold, he to be reimbursed by the one to whom he delivered the notice of delivery, and so on until it is finally paid by the party in default. And in case of such default and resale of property, all differences shall be adjusted as hereinbefore provided, on the basis of the price at which the property shall have been resold. All parties having property due them on time sales, shall be present, or shall be represented by an authorized employe, in the Exchange Hall, or such other place as may be designated by the Board of Directors, between the hours of 1:15 and 1:55 o'clock P.M. of each business day, and on the first business day of each month between the hours of 9 and 10 o'clock A.M., and admission to the Exchange Hall, or such other place as may be designated by the Board of Directors, shall be denied all parties after 1:15 or 9 o'clock, as the case may be. Any property which cannot be delivered, owing to the absence of the buyer from the Exchange Hall, or such other place as the Directors may have designated for the purpose of delivery, may be sold out by the party having same sold to such absentee, as hereinbefore provided in cases of default, all expenses and risk of carrying the property, commission, etc., shall be paid by the absentee, the same as in case of default; *provided, however,* such property shall not be sold until the absentee has had notice in writing, either delivered to him in person, to his business representative, at his place of business, or left at the Secretary's office in case he has no regular place of business, that the property was ready for delivery under this rule on his contract. In case it should appear on complaint, duly made to the Board of Directors, that any member has been guilty of issuing a notice of readiness to deliver property as herein provided, who had not the property mentioned in such notice in his control or possession at the time of issuing such notice, or, having issued such notice, shall thereafter dispose of the property, except as herein provided, or who refuses to deliver up such property when demanded, as provided for under this rule, such party shall be deemed guilty of gross fraud, and may be suspended or expelled from membership in the Association, under the provisions of Rule IV.

SEC. 3. The Board of Directors may prescribe all necessary regulations and requirements for warehousing all kinds of property (other than grain) deliverable by warehouse receipts.

SEC. 4. It shall be the duty of the Board of Directors, under this rule, to publish annually, or oftener, if necessary, by posting on the bulletin of

the Exchange, the names of all elevators and other warehouses, conforming in all respects to prescribed requirements of the said Board; and to report immediately to the Association, by posting as above, any irregularity in the management of such elevators or warehouses, or any fact calculated to discredit or impair the value of warehouse receipts of any such elevators or warehouses, as the same shall come to their knowledge. ^{Posting irregularities.}

SEC. 5. All warehouse receipts for property tendered or delivered on contracts, shall be for quantities or parcels, in the aggregate, as sold, accompanied by a memorandum of the property delivered, with the price of the same, together with the amount due therefor; *provided*, on all time contracts of five thousand (5,000) bushels of grain or flax seed, or any multiple thereof, deliveries shall be made in lots of five thousand (5,000) bushels; and on all time contracts for mess pork, sweet pickled hams or lard, for two hundred and fifty (250) packages or any multiple thereof, deliveries shall be made in lots of two hundred and fifty (250) packages; and on all time contracts for fifty thousand (50,000) pounds of meats or any multiple thereof, deliveries shall be made in lots of fifty thousand (50,000) pounds; and on all time contracts of one thousand (1,000) bushels of grain or flax seed, or any multiple thereof, except as provided above, deliveries shall be made in lots of one thousand (1,000) bushels; and on all time contracts for mess pork, sweet pickled hams, or lard, for fifty packages, or any multiple thereof, except as provided above, deliveries shall be made in lots of fifty (50) packages; and on all time contracts for twenty-five thousand (25,000) pounds of meats, or any multiple thereof, except as provided above, deliveries shall be made in lots of twenty-five thousand (25,000) pounds; a variation, however, of one per cent in the quantity of grain or flax seed delivered and that contracted for, shall not vitiate a tender or delivery. ^{Proper tenders.} ^{Of Grain.} ^{Of Mess Pork, Hams, or Lard.} ^{Meats.} ^{Of Grain. SEC. 6. All sales of flax seed, unless otherwise agreed, are made upon the basis of pure seed, that is: seed tendered or delivered on contracts may carry impurity or foreign matter, but must contain the sale quantity of pure seed, and for such pure seed only shall payment be required. Seed testing over seven per cent of impurity or foreign matter shall be subject to a deduction from the sale price as follows: on seed carrying over seven per cent, and up to and including fifteen per cent of impurity or foreign matter, one-quarter of one cent per bushel for each one per cent, or fraction thereof; and one-half of one cent per bushel on each one per cent or fraction thereof in excess of fifteen per cent.

RULE XXII.

RIGHTS OF PARTIES ON CONTRACTS.

Contracts —
buyer's demand
as to time.

When
deliverable.

When no
demand shall
be made.

SECTION 1. On time contracts, made between members of the Association, where property is bought, deliverable on the buyer's demand within a specified time, the time of delivery shall be as follows: when demand for the property is made by the buyer before 12 o'clock M., the property shall be due and deliverable before 1:55 o'clock P.M. same day. When the demand is made after 12 o'clock M., the property shall be due and deliverable before 1:55 o'clock same day, or before 11 o'clock A.M. next day. Or the buyer may specify any particular future day during the time when the property is deliverable, upon which the property shall be delivered, and the property shall be delivered before 11 o'clock on the day designated; *provided*, no demand shall be made before the beginning of the time specified, when it may be made; and if no demand is made, the property shall be deliverable before 1:55 o'clock

P.M. on the day of maturity of contract; and *provided also*, that all deliveries after 11 o'clock A.M. shall be made under the provisions of Section 2 of Rule XXI.

SEC. 2. On contracts for property deliverable at the pleasure of the seller, within a specified time, the seller may deliver the property on any day during such time, between the hours of 9 and 11 o'clock A.M., or between the hours of 1:15 and 1:55 P.M., as provided by Section 2 of Rule XXI.

SEC. 3. On contracts for grain or flax seed for future delivery, the tender of a higher grade of the same kind of grain or flax seed than the one contracted for shall be deemed sufficient: all contracts made for wheat hereafter, unless otherwise specified, shall be understood as for No. 2 wheat; and on such contracts a tender of either or both No. 2 spring and No. 2 red winter, and higher grades of each, or a tender in part of one kind, and in part of the other, making the amount required by the contract, shall be deemed sufficient.

SEC. 4. When a contract shall mature on Sunday or on a legal holiday, delivery on such contract shall be made on the preceding business day. No property shall be tendered on any day upon which the Association shall hold no business session.

SEC. 5. AMENDED MAY 12, 1886 :

RULE XXII.

SECTION 9. In case any member of this Association, acting as a commission merchant, shall have made a purchase or sale by order and for account of another, whether the party for whom any such purchase or sale was made be a member of this Association or not, said member shall be deemed authorized to settle such contract through the Exchange Clearing House of this Association and under the rules and regulations relating to such Clearing House; and the Board of Directors of this Association are authorized to establish rules and regulations governing the Exchange Clearing House of this Association, and to change, add to or modify such rules and regulations from time to time. In case any member of this Association, acting as a commission merchant, shall have made purchases or sales by order and for account of another, whether the party for whom such purchase or sale was made be a member of this Association or not, such order shall be deemed to have been made with reference to, and to be executed and carried out in all respects under the rules, regulations and customs of this Association (including the Exchange Clearing House regulations) the same as though they were in terms incorporated into such order; *provided*, that in case of substitution of one contract for another, or of offsets or settlements of contracts, in pursuance of such rules, regulations or customs, the member or firm making the same shall be held to guarantee to his or their principal the ultimate fulfillment of the original contract made under such order, and the principal also continuing liable on such original contract, the same as though no substitution, offset or settlement were made.

that in cases of such substitution the member or firm making the same shall be held to guarantee to his or their principal the ultimate fulfillment of all contracts made for account of such principal which have been so transferred, and shall be held liable to said principal for all damages or loss resulting from such substitution.

SEC. 10. In all sales of grain or flax seed for future delivery or for transfer to eastern railroads by car loads, a car load shall be deemed to contain twenty-four thousand (24,000) pounds. RULE XXIII.

FAILURE TO DELIVER OR RECEIVE ON CONTRACTS.

SECTION 1. In case any property contracted for future delivery is not delivered at maturity of contract, the purchaser may, if he shall so elect, consider the contract forfeited; or he may purchase the property on the market for account of the seller, by 1 o'clock of the next business day, notifying him at once of such purchase; or he may require a settlement with the seller at the average market price on the day of maturity of contract, and any damages or loss due to the purchaser by reason of such purchase or declared settlement, shall be due and payable by the seller immediately.

Rights of vendors may be forfeited.

May purchase property on the market.

May require settlement at market.

SEC. 2. In case any property contracted for future delivery is not received and paid for when properly tendered, it shall be the duty of the seller, in order to establish any claim on the purchaser, to sell it on the market at any time during the next twenty-four hours, at his discretion, after such default shall have been made, notifying the purchaser within one hour

Chief Inspector
of Provisions.

Bond.

SECTION 1. The Board of Directors shall appoint five members of the Association as a Committee on Provision Inspection, who shall have and exercise a general control over the inspection of provisions, and shall act as referees in case of complaint against the Chief Inspector of Provisions or the inspection of any lot of provisions, or any matter of difference pertaining to the same ; except as hereinafter provided. The committee shall be authorized, in determining the correctness of any inspection they are called upon to revise, to adopt any measures they may deem necessary under the circumstances for the ascertainment of its true character. The committee shall be entitled to fees amounting to three dollars each for each case of appeal decided by them, to be paid by the party against whom the decision shall be made.

SEC. 2. The Board of Directors shall also appoint a suitable person as Chief Inspector of Provisions, who shall be required to give a bond in such amount as may be prescribed by the Board of Directors, for the faithful performance of his duties as indicated by the Rules of the Board of Trade or by order of the Board of Directors. Said bond shall be satisfactory to the Board of Directors and be approved by them before the said Chief Inspector shall be entitled to enter upon the discharge of his official duties. Said bond shall be made to the President of the Board of Trade and his successors in office, for the use and benefit of any parties having legal claims for damages against said Chief Inspector on account of any of his official acts.

SEC. 3. The Chief Inspector of Provisions shall appoint, to be confirmed by the Committee on Provision Inspection, a sufficient number of competent deputy inspectors, who shall be under his control, and subject to his orders in all matters pertaining to the performance of official duty. Deputy Inspectors, how appointed.

SEC. 4. The Chief Inspector, through and by his deputies, shall furnish the necessary labor and materials for inspection. The several deputy inspectors shall make a report in detail of every inspection or examination they may make, which report shall be returned to the Chief Inspector, and be by him preserved for future reference. Inspecting. Reports.

SEC. 5. The Board of Directors shall also appoint a competent person as Registrar of Provisions, whose duty it shall be to provide and cause to be kept suitable books in which shall be registered all warehouse receipts for beef and hog product issued as "regular" or for the "regular delivery" of such property in the Chicago market under the Rules of the Board of Trade; such receipts, after being so registered, shall be stamped or written across their face with the word "Registered," and the date of such registry, and signed, in writing, by the said Registrar or some person duly authorized by him for that service. All warehouse receipts, before being registered, shall be plainly numbered, and shall indicate on their face the number or mark of the particular lot of property intended to be covered or represented by such receipt. All such receipts issued from or by each warehouse or other place of storage shall be consecutively numbered, and no receipts of duplicate numbers issued from the same place of storage shall be registered. All property covered or represented by registered warehouse receipts shall be plainly marked in such manner as will clearly distinguish it from all other property stored in the same warehouse or place of storage, and by such marks, numbers, or characters as may be approved by the Registrar of Provisions; Registrar of Provisions. such marks to be so arranged as to avoid the possibility of duplication or uncertainty as to the identity of the property so receipted for. No warehouse receipt shall be registered until a report shall have been received at the office of the Registrar of Provisions from a duly authorized deputy that the property represented by the receipt is actually in the place of storage and is marked as indicated in the receipt; such reports shall be in a form prescribed by the Registrar, and shall be preserved by him for future reference. No second warehouse receipt for the same property shall be registered unless the original is presented at the time, and its registration canceled by the Registrar. In such case new receipts, either for the whole or parts of lots, or the consolidation of different lots, may be registered upon the report of a deputy that the property is in the place represented, and is marked as represented. All new receipts so registered shall bear the same date, as near as may be, with the originals so canceled, and no receipts differing in date more than thirty days shall be consolidated into a new receipt.

New receipts.

Property not to be removed until registration is canceled.

No property shall be removed from the place of storage indicated by any registered receipt issued to represent it, until the registration of such receipt has first been canceled in the office of the Registrar of Provisions by writing or stamping across its face the words, "Registration Canceled."

Compensation of Chief Inspector.

SEC. 6. The Chief Inspector shall receive for his services and for the compensation of the deputy inspectors employed by him, the fees for inspecting as established by the Board of Trade. The Registrar shall receive, as compensation for his own services and the necessary expenses of his office, such sum, to be paid from the funds of the Association, as may be determined by the Board of Directors.

Compensation of Registrar.

Claims for damages.

SEC. 7. All claims for errors of inspection, or damages resulting from improper inspection, shall be made to the Chief Inspector, and in case of dis-

pute as to the validity of any claim so made, the question shall be decided by the Committee on Provision Inspection, or by a special arbitration, if either of the parties so prefer. In the latter case the arbitrators shall be chosen either by mutual agreement, or an equal number, not exceeding two, may be selected, each by the Chief Inspector and the claimant; and the persons so chosen shall select an additional arbitrator. Arbitrations either by the Committee on Provision Inspection or special arbitrators, shall be conducted under substantially the same form of proceedings as regular arbitrations under the rules of the Board of Trade, and shall be subject to all the provisions of regular arbitrations, except that they shall not be subject to appeal.

SEC. 8. All deliveries of beef or hog product in store, in the absence of special agreement, shall be by the delivery of registered warehouse receipts, issued from such warehouses or places only as shall have been declared a regular warehouse for the storage of such property, under the Rules of the Board of Trade by the Board of Directors; such places of storage, in all cases, to be under cover, and such as is suitable for the proper preservation of the property. All such deliveries shall be accompanied by a certificate of inspection of the Chief Inspector of Provisions, which certificate shall state the number of packages or the number of pieces, together with their weight, in the lot to which it applies, the place where the same is stored, and the distinguishing marks upon it; also the number of packages or pieces examined, and that the same was found to be in good merchantable condition and of standard quality. In the case of barreled pork, the number of pieces and the weight in each barrel shall be stated; also the date of its packing as indicated by the packer's brand upon the packages. Such certificate shall be dated within five (5) days of such delivery; the required

other points.

SECTION 1. All provisions sold in this market, in the absence of special agreement, shall be deemed Standard, and the property delivered must comply with the requirements of the regulations of inspection established by the Association. And all provisions sent to this market for sale, which, upon examination, shall be found to have been manufactured, handled, or packed, in all respects and to all

appearances in conformity with those rules, shall be classed as Standard.

SEC. 2. All provisions sold as Standard shall be cut, selected, and packed, in all respects as to quality and condition, conformably to the classification of inspection as adopted by the Association; and unless otherwise stipulated on all sales made of any of the grades of provisions as Standard, the seller shall deliver the parcels of the kind and quality called for by such sale, which any duly appointed inspector of the Association has examined, and has certified to have been packed according to the classification, and is at the time of delivery in good merchantable condition in every respect; or, failing to so deliver, he shall be bound to settle his contract under the provisions of Rule XXIII of the Association: *provided*, that in all sales specified as for cash, the buyer shall not be bound to pay inspection fees unless he orders the inspection of the property.

Deliveries
at seller's
pleasure.

SEC. 7. On sales of provisions deliverable at the pleasure of the seller within a specified time, the seller shall have the privilege of delivering, at any time during the life of the contract, without previous notice to the purchaser, by the tender of a registered regular warehouse receipt, together with a certificate of inspection, by an inspector of the Association (such inspection having been made within the last five days); such a delivery shall be held to be regular, and the buyer shall receive and pay for the same, together with the fees for inspection. If, however,

Tare of lard.	SEC. 14. To determine the tare of lard, the package shall first be weighed gross, the lard then removed, and the empty package subjected to dry heat and drained, the empty package to be then weighed and its weight deducted from the gross weight. The difference so obtained shall be considered the net weight of the lard.
Weight of lard in tierces.	SEC. 15. In case lard in tierces be delivered of a weight more or less than 320 lbs. net per tierce, the shortage or excess shall be settled for at the current market price, but the full number of packages contracted for shall be delivered. In the settlement of contracts for lard, 320 lbs. net shall be taken as the average weight of a tierce.
Settlements.	
Deliveries by car or team.	SEC. 16. Provisions, if desired by the purchaser, must be delivered at cars or on teams, from packing house or store, free of charge. All deliveries of provisions in store shall be free of storage to the buyer for five (5) days, or, if in packing houses, for three (3) days, except when the first day of the month falls on Sunday or a holiday ; in which case receipts shall be regular to the buyer, if free of storage, for four days, or, if in packing house, two days from the time the seller signifies his readiness to deliver, and any extra expenses attending the examination of provisions are to be paid by the party ordering the same.
Free storage.	
Standard net weight of meats in boxes.	SEC. 17. The standard net weight of meats packed in boxes shall be between 450 and 525 pounds for each box, and in all settlements or deliveries of boxed meats an average of 500 pounds net per box shall be made the basis for settlement, and the excess or shortage from said average shall be settled at the market value of the property delivered at the time of its delivery. But in case of delivery the full number of packages contracted for must be delivered.
Weight of sides.	SEC. 18. Long clear sides shall not average less than forty-five (45) pounds ; short clear sides shall

not average less than forty (40) pounds; and short rib sides shall not average less than thirty (30) pounds, and dry salted shoulders shall not average less than ^{Shoulders.} twelve (12) pounds, to be standard and regular on delivery, either loose or boxed.

SEC. 19. On an examination by an inspector of dry salted meats, in bulk or for boxing, if over twenty ^{Limit on rejected meat to be regular.} (20) per cent turns out rejected, he shall not be required to take the lot in that condition.

SEC. 20. A delivery of sweet pickled hams or ^{Unsound hams or shoulders.} shoulders shall be considered regular if they average not over two (2) pieces unsound per tierce, and a deduction of twenty-five (25) per cent on the price shall be made on the unsound.

RULE XXVI.

TARES.

SECTION 1. In the sale of any property in packages, involving the question of tare, the actual weight ^{Packages to be stripped.} of packages (to be ascertained by stripping, at the time of delivery) shall be deducted from the gross weight. In case the purchaser shall require the weighing and stripping of lard that has been delivered on marked weights, such weighing and stripping shall be done, and the result reported, within five (5) business days (including the day of delivery) ^{Time allowed for report.} after delivery, or the purchaser shall have no right of reclamation on the seller.

RULE XXVII.

SECTION 1. All former Rules and By-Laws of the Association are hereby repealed; *provided*, pending complaints and complaints based on transactions or defaults which have occurred prior to the adoption ^{Pending complaints and defaults.} hereof, shall be governed by the rules heretofore in force.

BY-LAWS.

ARTICLE I.

At all general or stated meetings of the Association or Board of Directors, the following shall be the ^{Stated meetings—order of} order of business :

Call to order.

Reading minutes of previous meeting (which may be dispensed with).

Hearing reports.

General business.

Adjournment.

ARTICLE II.

At all special meetings of the Association or Board of Directors, only such special business shall be ^{Business of special} considered as was expressly embraced in the call for such meeting, except by unanimous consent.

ARTICLE III.

When any member requires it, the mover of a ^{On debates.} proposition shall put the same in writing. No debate shall be permitted except on a motion regularly made and seconded. A member, however, shall not be prevented from prefacing with explanatory remarks any proposition he may be about to make.

ARTICLE IV.

Limitations
upon debate.

Every member who speaks shall rise and address the President, and no person shall speak more than twice on the same subject, except by way of explanation, if objection is made thereto, unless permitted to proceed by a majority of those present.

ARTICLE V.

Question of
order.

Appeals.

The presiding officer shall be judge of all questions of order and proceedings, and when the rules of the Association or of parliamentary order are infringed upon, he may call any member to order. A member may appeal to the Association on any question of parliamentary proceeding not provided for by the Rules or By-Laws of the Association, or by a special order, and, if seconded on such appeal, a majority of the members present shall decide the question at issue.

ARTICLE VI.

Interruptions
and privileged
questions.

No business before any meeting of the Association shall be interrupted, except by motion for the previous question, to lay upon the table, to postpone, or to adjourn, and such motion shall preclude amendment or decision of the original subject until such motion shall be disposed of.

ARTICLE VII.

Division of the
question.
What motions
not debatable.

Reconsidera-
tion, when in
order.

A member may call for the division of a question when the sense will admit of it. A motion to lay upon the table, or to indefinitely postpone, shall not be debatable, and a proposition, once disposed of, shall not be revived at the same meeting, except by a vote to reconsider; and a motion to reconsider shall

not be entertained, except at the same or the next meeting after the former action, and then only when made by a member absent or voting with the majority.

ARTICLE VIII.

No vote shall be taken on 'Change, except when notice has been given at least one day, or by unanimous consent. Upon demand of one-third of the members present, any question, so submitted, shall be referred to a meeting of the Association at some time other than the usual hours of 'Change.

Votes on 'Change.
Reference to a special meeting.

ARTICLE IX.

All questions of order, or proceedings provided for by the Rules and By-Laws, shall be held to govern both the Association and the Board of Directors, so far as they may be applicable.

Application of rules of order.

ARTICLE X.

None of the general Rules or By-Laws of the Association shall be rescinded or altered, nor shall any new Rules or By-Laws be adopted except by an affirmative ballot vote of a majority of the members voting on the proposition, and on which ballot there shall be at least three hundred (300) votes cast. No proposition to amend the general Rules or By-Laws shall be entertained or submitted to a vote, unless it shall have been recommended by a vote of the Board of Directors at a regular meeting of the said Board, or has been approved by the Board of Directors on the recommendation in writing of at least twenty-five members of the Association. In case a proposition for such amendment is submitted to the Board of Directors by at least twenty-five members, it shall be considered by them, and reported on to the Asso-

ciation within fifteen days from the first regular meeting of said Board after it shall have been so presented; and in case it be not approved by the Board of Directors, they shall, in reporting it to the Association, give their reasons for such disapproval, and the said proposition may then be brought before the Association for a ballot, as herein provided, on a new submission in writing, over the signatures of at least one hundred members. Any proposition to amend the Rules or By-Laws shall, before being acted upon by the Association, be conspicuously posted in the Exchange room for at least ten days immediately preceding, and it may be amended in any way that is germane to its general scope, at a regular or special meeting of the Association (not during the regular business hours on 'Change), *provided* that such amendment, in specific form, is submitted over the signatures of twenty-five members, at least three days prior to the time it may be submitted to a ballot vote, during which time it shall also be posted with the original proposition.

Closing of
Exchange
room.

The provisions of Section 6 of Rule IV, in respect to the opening of the Exchange room on business days, may be suspended, as to any particular day, by a ballot vote (after at least one day's previous notice) had on the request, in writing, of at least fifty members, addressed to the President of the Association.

REGULATIONS

OF THE

BOARD OF TRADE

GOVERNING THE INSPECTION OF FLOUR.

REGULATION I.

INSPECTION COMMITTEE.

The Board of Directors shall appoint a standing committee on Flour Inspection, to consist of five members, who shall be dealers in flour. This committee shall have and exercise a general control of the inspection of flour.

Shall consist of five.
Powers.

REGULATION II.

FLOUR TO INSPECT AS SOUND.

Flour classed as sound shall be strictly sound, free from any and every defect or fault, causing either smell or taste.

Sound.

REGULATION III.

FLOUR TO INSPECT AS UNSOUND.

All flour not strictly sound, whether the unsoundness be derived from the condition of the grain from which it was manufactured, or has originated in the flour, shall be classed as unsound, or slightly unsound, as its condition may be.

Unsound.

REGULATION IV.

BRANDING.

Only sound
and full weight
to be branded.

Brand.

The Inspector shall brand all flour inspected by him in barrels that is sound and full weight; stencils shall be used for branding, which shall read as follows: "Official Inspection, Board of Trade, Chicago," also giving month and year of inspection.

REGULATION V.

CERTIFICATE OF INSPECTION.

Certificates.

Irregular
Flour.

Unsound
Flour—
condition
to be stated.

Damaged
packages.

Flat hoops.

Certificate of inspection shall be issued by the Inspector in strict accordance with the inspection of every lot examined by him. No separate certificate shall be issued by the Inspector for two or more parts of any one lot of flour inspected by him, a part of which is sound and a part unsound, or when it inspects two or more grades. When flour is inspected by sample, the certificate shall mention its condition as well as its relation to the sample. When flour is unsound the Inspector shall state in the certificate the character of the unsoundness as *musty*, *hard sour*, *soft sour*, *unsound*, or *slightly unsound*, and the number of packages of each description, and also, when practicable, the number of packages that may be so stained or out of condition as to depreciate the market value of the flour. In case the flour has been overhauled and cleaned on account of having been wet, and the Inspector shall deem such overhauling in any way damaging to the market value of the flour, he shall note in his certificates "wet and cleaned." If flour is in flat-hooped barrels, the Inspector shall so note in his certificates. Samples of all flour inspected by the Inspector shall be furnished by him to the party ordering the inspection.

REGULATION VI.

REINSPECTION.

There shall be no charge for a single reinspection on flour belonging to the same owner, for whom the first inspection was made; but on more than one reinspection of the same flour, and on flour which has changed ownership after the first inspection, the Inspector shall be entitled to his regular fee.

Reinspection
and charges for
same.

REGULATION VII.

WEIGHTS.

A barrel of flour shall be deemed to weigh one hundred and ninety-six pounds, net, and no allowance shall be made for any overweight. In case of short weights, the buyer shall be allowed for the shortage at the rate he pays, and $\frac{1}{2}$ cent per pound on the same for freight; and, in addition, 5 cents per barrel for the expense of refilling. The Inspector shall satisfy himself in regard to weights, and in case he deems it necessary to strip some of the flour, he shall strip five barrels from each lot, and shall be entitled to 15 cents for each barrel so stripped; if it proves to be short in weight, the charge for stripping to be paid by the seller. All packages of flour which may be found largely deficient in weight, from bad order or other cause, shall not enter into the average, but their weight shall be separately ascertained and certified to by the Inspector. When flour is sold in sacks, the gross weight shall be considered the actual weight. In case of short weight, the buyer shall be entitled to 1 cent per pound for freight.

REGULATION VIII.

INSPECTOR'S FEES.

Fees for
inspection.

The fee for inspecting and branding flour within the city of Chicago shall be at the rate of 2 cents per barrel, whether the flour be in barrels or sacks, the buyer to pay one-half of the same. And unless the flour in sacks is sewed and loaded in accordance with the recommendations of the Committee on Flour Inspection, the Inspector will be entitled to charge for the labor necessary to put the flour in proper condition for inspection, a sum not to exceed \$2 per car.

REGULATION IX.

REPORTS OF STOCKS AND INSPECTIONS.

Stocks to be
reported
monthly.

It shall be the further duty of the Inspector to ascertain the stock of flour in Chicago on the first day of each month, and to report the same to the Secretary of the Association, to be by him posted upon the bulletin of the Exchange Room. In taking the account of stock there shall be included only the amount in the several freight depots, the public warehouses, and the place of storage by receivers, and in the city mills. The Inspector shall also furnish to the Secretary of the Association, monthly, a statement of the number of barrels and the number of sacks of flour inspected by him during the preceding month.

Inspections
to be reported.

REGULATION X.

SAMPLES FURNISHED AND RETAINED BY INSPECTOR.

Inspector to
furnish
samples.

It shall be the further duty of the Inspector to furnish in the Exchange Rooms each day before 12 o'clock noon, to the parties for whom the flour

is inspected, the Inspector's sample or samples (if more than one grade in lot) of each car or lot of flour that is inspected by him; said sample or samples bearing his official stamp upon the face of the bags. He shall also retain duplicate samples of all flour inspected by him for sixty days from the time of inspection; and, on the request of either buyer or seller, shall preserve the sample for a period not to exceed four months. Samples to be retained.

REGULATION XI.

APPEALS.

In case either the buyer or seller is dissatisfied with the inspection of flour, he shall have the privilege of taking an appeal to the Committee on Flour Inspection, upon paying a fee of five dollars for every appealed case; this fee to be paid to the Secretary of the Board by the party making the appeal at the time the appeal is made. Such fees to be paid by the Secretary to the committee in case the Inspector is sustained, but in case the Inspector is not sustained, the fee shall be refunded to the applicant for the appeal. The samples, without name or date, shall be furnished by the Inspector, who shall state the cause of appeal. Neither buyer nor seller shall be represented before the committee, and the decision of a majority of the committee shall be final. Appeals.

REGULATION XII.

CARTAGE OF FLOUR.

In the absence of special agreement to the contrary, it is established as a regulation of trade that in sales of flour any cartage for moving the property from where it is at the time of sale shall be paid by the buyer. Cartage in absence of special agreement.

REGULATION XIII.

REPEAL OR AMENDMENT OF REGULATIONS.

Repeal or
amendments.

No change shall be made in these regulations or recommendations by the Board of Directors before submitting the same to a meeting, properly called, of the members of the Board of Trade that are interested in the flour trade, in which ten shall constitute a quorum.

RECOMMENDATIONS.

Flour in sacks,
how fastened
and loaded.

The Committee on Flour Inspection recommend to millers and shippers of flour in sacks, to be inspected in this market, that in closing the sack the mouth edge of the sack be turned in without rolling, and sewed with a single seam, the stitches to be at least one and a half inches apart. Also, that in loading cars the sacks be placed on end, with the mouth up. Unless these recommendations be complied with, the Inspector will charge for the labor necessary to put the flour in proper position for inspection.

with
Inspectors.

of duty, or the improper performance of any duty as Inspector of grain, and any person who shall improperly influence any Inspector of grain in the performance of his duties as such Inspector, shall be deemed guilty of a misdemeanor, and, on conviction, shall be fined in a sum of not less than \$100 nor more than \$1,000, in the discretion of the Court, or shall be imprisoned in the county jail not less than three nor more than twelve months, or both, in the discretion of the Court."

Mixed lots of
grain.

The said Chief Inspector, and all persons inspecting grain under his direction, shall in no case make the grade of the grain above that of the poorest quality found in any lot of grain inspected, when it has evidently been "plugged" or otherwise improperly loaded for the purpose of deception. Wheat which has been subjected to "scouring" or to any process equivalent thereto, shall not be graded higher than No. 3.

Attempts to
defraud the
inspection
system.

All persons employed in the inspection of grain shall report all attempts to defraud the system of grain inspection as established by law. They shall also report to the said Chief Inspector, in writing, all instances where warehousemen deliver, or attempt to deliver, grain of a lower grade than that called for by the warehouse receipt. They shall also report all attempts of receivers or shippers of grain to instruct or in any way influence the action or opinion of the Inspector, and the Chief Inspector shall report all such cases to the Commissioners.

REGULATIONS
FOR THE
INSPECTION OF PROVISIONS.

IN FORCE APRIL 1, 1886.

REGULATION 1. For the examination of provisions ^{Duty of} sold as standard, it shall be the duty of any Inspector ^{Inspectors.} properly appointed by the Association, on receiving notice, to go to any packing house or warehouse in the city, to examine provisions, in such quantities as may be required, selecting the same in such a manner, from the lots specified, as, in his judgment, will give a fair sample of the whole.

REG. 2. If, upon examination, the property is ^{Certificates.} found, in all respects, up to the requirements of the classification of the grades adopted by the Association, he shall issue a certificate to that effect, which certificate shall state the number of packages, pieces, or pounds examined, and also the number of packages, pieces, or pounds in the lot to which the examination is intended to apply, and that the packages (if any) are in good merchantable order and condition. In the case of lard, no certificate for inspection shall ^{On lard.} be issued unless every package is examined ; but, on request of the owner or person ordering the inspection, the Inspector may examine a part of a lot, and issue a certificate of such examination, stating the number of packages examined, and also the whole number of packages in the lot.

REG. 3. When necessary to remove property for ^{Removal of} the convenience of examination, it shall be the duty ^{provisions.} of the Inspector to send for the same, that a fair

	sample may be obtained. In no case should a certificate be granted on samples delivered by the seller.
Fees for inspecting by sample.	REG. 4. The fees for inspection are established as follows: for inspection by sampling—including re-

	(50) cents per package. For the labor of breaking down and repiling, the Inspector shall be paid three
	(3) cents per package, the same to be paid to the warehouseman if repiled, or to the party shipping the property if shipped without repiling.
Repacked provisions.	REG. 5. It shall be the duty of the Inspector, when requested by the owner, either at any packing house, warehouse, or in yards provided by the Inspector, to

overhaul and inspect provisions, according to the qualifications and classifications authorized ; two hundred pounds of meat, with abundance of good salt, to be repacked into each barrel, and cooperage to be put in good order ; each barrel of provisions that is ^{Branding.} sound, sweet, and free from any and every defect, to have grade and date of inspection branded thereon, and the word "Repacked," as hereinafter specified ; and any portion that is defective to be branded, in like manner, Rusty, Sour, or Tainted, as the case may be ; the said brand to be placed with the Inspector's brand across the regular packer's brand ; such provisions, according to the grade or quality, to be classed as "Repacked 200 lbs."

REG. 6. The Inspectors shall use metallic letters ^{Branding} and figures, marking iron or stencil for their dates ^{implements.} and class of inspection.

REG. 7. It shall also be the duty of the Inspector ^{Branding.} to put his metallic brand, marking iron, or stencil on all samples of provisions in tierces or barrels that he inspects ; and he shall pass no hog products in tierces or barrels as Standard, unless the real packer's name, location, number of pieces, date and weight of the products contained therein are branded, according to these rules, on the head of every package.

REG. 8. Should the Inspector be called upon to ^{Pickled meats} inspect pickled meats, and upon examination he ^{irregularly} ^{packed.} should be of the opinion that the number of pounds required by these rules had not been originally packed, he shall not pass them as Standard, but shall refer the matter at once to the Committee on Provision Inspection, who shall investigate, and if a satisfactory explanation can be given or arrived at, they shall instruct the Inspector to proceed and inspect and pass them ; but if not satisfactory to the committee they shall, in their judgment, make the fact known to the Association in any way they may think most proper.

REG. 9. Contents of each package of pickled

-
- Uniformity of contents. meats must show a reasonable uniformity in weight, according to its class.
- Visitation of packing houses. REG. 10. It shall be the further duty of the Inspectors, during the packing season to visit frequently the different packing houses to see that provisions are properly dated and branded at time of being packed.
- Cut of sides may be changed. REG. 11. Dry salted rough sides may be made into short rib or short clear sides, and dry salted short rib sides may be made into short clear sides, if, in all other respects, they are up to the requirements, and shall be classed as Standard.
- Technicalities. REG. 12. All the foregoing regulations, and the requirements as to the cut and packing of hog products, must be justly and liberally construed, and no property shall be rejected or condemned on mere technicalities; but this shall not be regarded as giving license to departure from their general spirit and intent.

FLAX SEED.

REGULATIONS ADOPTED BY THE BOARD OF TRADE FOR THE GRADING AND INSPECTION OF FLAX SEED.

IN FORCE APRIL 1, 1886.

SECTION 1. Grades of flax seed shall be as follows :

Number One.—All dry, sound, and sweet, slightly Number 1. blighted, or stained seed, weighing not less than fifty pounds of pure seed to the measured bushel, and containing not more than fifteen per cent of impurity or foreign matter, shall be Number One.

Rejected.—May be slightly damp, unsound, Rejected. blighted, or musty seed, and yet fit to store, and may contain over fifteen per cent of impurity or foreign matter.

No Grade.—Warm, moldy, musty, wet, or light No grade. trashy seed, or any seed unfit for storage shall be known as No Grade.

SEC. 2. In inspecting flax seed in bulk on cars, Manner of inspecting. samples shall be taken by the Inspector, from at least six different places or parts of the car, in manner as follows : a geared screw sampler shall be passed through the seed to the bottom of the car, drawing therefrom each time the full capacity of the sampler (about two quarts). One gill from each of the samples thus taken being thoroughly mixed with each other, shall be deemed a fair sample of the car.

SEC. 3. The grade (whether in bulk or bags) shall Grade when determined. be determined while the sample is being taken, and a card plainly stating the grade shall be placed upon the door of the car.

SEC. 4. In testing seed, one pound shall be taken Manner of testing. from the sample obtained as set forth in Sections 2, 6 and 7, and the impurities or foreign matter therein.

Method of testing.

shall be separated from the flax seed, as nearly as practicable, by the use of sieves, one with meshes 3×16 , and the other with meshes 16×16 . The percentage of impurity or foreign matter thereby obtained and the weight per measured bushel of pure seed, shall be ascertained, by the use of suitable testing scales. Then the two parts shall be mixed with each other again, and preserved by the Inspector for sixty days, in such manner that the lot of seed which it represents can be determined. The unused portion of the sample shall be kept two days by the Inspector, subject to the order of the owner.

Certificates.

SEC. 5. It shall be the duty of the Inspector to issue to the owner, agent, or consignee, a certificate of any seed inspected by him, which certificate shall plainly state the date of inspection, how received or shipped, naming road or vessel, number of car and initial letter, name of warehouse delivering, grade, percentage of impurity or foreign matter, weight of pure seed per measured bushel and if delivered to car or vessel, the quantity of gross seed.

Inspection in bags.

SEC. 6. Upon notification of owner or consignee of flax seed in bags, the Inspector shall inspect same in manner as follows: one gill of average quality shall be taken from each bag as emptied, and the whole being thoroughly mixed, he shall take therefrom three pounds, which shall be deemed a fair average sample of the lot.

Inspection from store.

SEC. 7. The inspection of flax seed from elevator or warehouse shall be made by use of a trier such as is commonly used in inspecting grain; a sample shall be taken from the shipping scale hopper, when practicable, of each draught as weighed, and in such a way as shall give a fair average sample of the seed. From these samples so taken, after being thoroughly mixed together, shall be saved an average sample suitable for testing.

Posting of inspection.

SEC. 8. The Inspector shall post daily on 'Change a report of all seed inspected within the twenty-four

hours preceding. Such report shall state how received or shipped, naming road, number and initial letters of car, name of boat or vessel, test, grade, and if below No. 1, reasons therefor.

SEC. 9. *Fees*.—The fees for inspecting flax seed ^{Fees for inspection.} consigned to Chicago, shall be as follows: each car or part of car, of one grade in bulk, sixty-five cents; each two or more grades in same car in bulk, fifty cents; each lot of two hundred bags, not exceeding three hundred and fifty bags of one grade, one dollar; each lot of seventy-five bags, not exceeding two hundred bags, seventy-five cents; each lot of bags, not exceeding seventy-five, fifty cents. The fees for inspecting flax seed, to be shipped or transferred, shall be as follows: for each car load (if per teams, each four loads to constitute a car load), or part thereof, in bulk, thirty-five cents; for each lot of two hundred or more bags, not exceeding one car, seventy-five cents; for each lot of bags less than seventy-five, forty cents; for each one thousand (1,000) bushels inspected from warehouse in bulk to means of transportation, other than as set forth, forty-five cents.

SEC. 10. Any person interested shall have the ^{Appeals from inspection.} right of appeal from the decision of the Inspector to the Committee on Flax Seed Inspection, by giving notice in writing and paying to the Secretary of the Board five dollars for each and every case appealed. If the inspection is sustained the five dollars shall be paid to the committee; if not sustained, then to be returned. If practicable, the committee shall examine the seed upon which appeal has been taken. If not practicable, the Inspector shall furnish sample taken by him.

SEC. 11. The Board of Trade, in establishing the ^{Liability of Board of Trade} regulations for the inspection of flax seed, and appointing an Inspector thereof, assumes no liability or responsibility for errors in judgment or otherwise on the part of the Inspector.

REGULATIONS FOR THE INSPECTION OF HAY.

- Requirements. No. 1 TIMOTHY shall be timothy, and not more than one-fifth of other tame grasses, mixed ; good color, well cured, and free from must.
- Requirements. No. 2 TIMOTHY shall be timothy, and not more than one-third of other tame grasses, mixed ; good color, well cured, and free from must.
- Requirements. MIXED HAY shall consist of tame grasses, mixed ; good color, well cured, and free from must.
- Requirements. PRIME PRAIRIE shall be purely upland hay free from swale grasses ; good color, well cured, and free from must.
- Requirements. No. 1 PRAIRIE shall be upland and midland prairie hay ; good color, well cured and free from must.
- Requirements. No. 2 PRAIRIE shall be swale or slough hay, either wholly, or mixed with upland ; good color, well cured and free from must.
- Hay out of condition. No GRADE HAY ; all kinds of hay, badly cured, stained, or in any way out of condition ; the certificate of inspection stating whether it is tame or prairie hay.
- Certificates. All certificates of inspection shall show the number of bales and grade in each car or lot inspected and plugged ; and when for shipment the final inspection and plugging, in order to ascertain the sound condition of each bale, shall take place at the time of shipment. The fees for inspection shall be three dollars per car, to be divided equally between the buyer and the seller.
- Fees.

REQUIREMENTS FOR GRAIN WAREHOUSES.

system. estly and cordially coöperate with the system of registration of warehouse receipts as established by law, and furnish to the Registrar all needed information to enable him to keep a correct record and account of all grain, together with the grade thereof, received and delivered by them daily, and of that remaining in store at the close of each week.

Fifth, The proprietors or managers of such ware- Damage to
grain to be
reported. houses shall promptly, by the proper publication, advise the trade and the public of any damage to grain or flax seed held in store by them, whenever such damage shall occur to an extent that will render them unwilling to purchase and withdraw from store, at their own cost, all such damaged grain.

Warehouses
may be declared
no longer
"regular."

Sixth, Any important change in the conditions of any warehouse, or disregard or evasions of the above requirements, shall at any time be a sufficient cause for declaring any such warehouse no longer a regular warehouse within the meaning of the Rules of the Board of Trade.

Seventh, The proprietors or managers of warehouses storing flax seed, are required to do so, subject to the provisions regarding grain of Sections 6, 7, 8, 9, 10, 11, 12, 16 and 17 of the law of the State of Illinois, entitled: "An Act to Regulate Public Warehouses and the Warehousing and Inspection of Grain," etc., approved April 25, 1871.

Provided, that so much only of Section 12 as relates to weekly statements shall be applicable to flax seed, and instead of report being made to the Registrar, report shall be made to the Secretary of the Board of Trade.

Eighth, In the delivery of flax seed from elevator or warehouse, the quantity of gross seed covered by the warehouse receipt shall be delivered, and any excess or deficiency between the quantity of net or pure seed so delivered, and the quantity of net or pure seed covered by the warehouse receipt, shall be paid for to or by (as the case may be) the elevator or warehouse proprietor or manager, at the average market price of the day of delivery.

REQUIREMENTS FOR WAREHOUSES

FOR THE

STORAGE OF PROVISIONS.

In order that their Receipts may be Registered and Delivered as "Regular" on Contracts for the Sale of Provisions under the Rules of the Board of Trade.

ADOPTED BY THE BOARD OF DIRECTORS. IN FORCE APRIL 1, 1886.

First, The place of storage shall be such only as is approved by the Board of Directors, who shall consider its location and facilities for handling, receiving and shipping this class of property. Storage to be approved by Board of Directors.

Second, The proprietors or managers of such warehouses shall be in unquestioned standing as to financial responsibility and integrity. Proprietors must be in good credit.

Third, The proprietors or managers of such warehouses shall agree to honestly and cordially cooperate with the system of registration as adopted by the Board of Trade, and furnish the Registrar all needed information to enable him to keep a correct record and account of all provisions in store in their respective places of storage; and shall report to him on the first day of each month the amount or quantity of provisions held in store by them respectively at the close of business on the last day of the month next preceding, whether said property is their own or held by them for account of others, and whether represented by outstanding warehouse receipts or otherwise; said report to be made on the next succeeding business day, when the first day of the month falls upon a Sunday or a holiday. Said reports shall be made on a form of blank provided by the Registrar Coöperation with registration system. Monthly reports. Form of reports.

Reports to be sworn to. of provisions, and shall be signed by the person, firm or corporation having said property in charge, and shall be sworn to by either the person so signing, or some person in their employ having personal knowledge of the facts upon which the report is based. The property so reported shall be correctly embraced under the heads or descriptions provided for in said form of blank.

Damage to property to be reported. Fourth, All such warehouse proprietors or managers shall promptly report to the said Registrar, as the same shall come to their knowledge, any information touching the condition of any property held in store by them, under registered warehouse receipts, that will tend to impair its value, and which it may be important and proper should be known to the trade.

Bond. Fifth, All proprietors or managers of warehouses for the storage of provisions shall, before the same shall be declared "regular" under the Rules of the Board of Trade, file with the said Board of Trade a satisfactory bond for such an amount as may be deemed proper in each particular case; said bond to be in the form and conditioned as provided in the Rules of the Board of Trade, and shall provide that all receipts issued for property by such warehouse proprietors or managers shall state on their face that in case such receipt shall have been registered by the Registrar of the Board of Trade, such registration shall be canceled by said Registrar before the property represented by the receipt shall be deliverable.

Warehouses may be declared no longer "regular." Sixth, Any regular warehouse may, for good and sufficient reasons, satisfactory to the Board of Directors of the Board of Trade, be declared no longer a regular warehouse for the storage of provisions under the Rules of the Board of Trade: *provided*, property already in store in such warehouse shall continue to be regular on delivery so long as it remains intact in such warehouse.

Proviso.

REGULATIONS GOVERNING THE TRADE IN HOPS.

First, It shall be the rule that a bale of hops shall weigh not less than one hundred and seventy-five (175) or more than two hundred (200) pounds ; but the tender or delivery of any lot of hops on a sale or a contract, averaging one hundred and eighty-five (185) to one hundred and ninety-five (195) pounds, shall be deemed a compliance with this rule.

Weight of a
bale.

Second, The sacking of hops shall not weigh more than twenty-four (24) ounces per yard, and seven (7) pounds shall be deducted from the weight of each bale as tare ; and any additional weight of sacking, or any extraneous matter, shall be considered as irregular, and the seller be liable to the purchaser for such excess.

Sacking.

Third, Each and every bale of hops sold must be marked with the grower's name or initials, and the name of the state where the hops have been raised, and the year produced.

Marks on
bales.

REGULATIONS
OF THE
CHICAGO BOARD OF TRADE CLEARING HOUSE.

I.

The style and address of all business houses making clearings must be registered at the Clearing House; and any subsequent change in address reported.

II.

Printed reports to show the net balances, as provided in General Rules No. XXII, Section 6, Paragraph 2, must be obtained at the Clearing House.

III.

Parties whose reports shall show a net balance against them shall accompany the report with a check for the said net balance, made payable to the order of Chicago Board of Trade Clearing House. Such check must be certified, under penalty of a fine of one dollar. No money will be accepted, but the checks of the Clearing House may be used in payment of balances.

IV.

All reports must be in the Clearing House by 11 A.M. of each business day, under penalty of a fine of five dollars if tardy, and the posting of the delinquent party on 'Change at 12 M.

V.

Parties having no items to clear must so report in writing, and parties whose reports may be equal on both sides, and

~~those~~ whose reports show a credit balance, must put them in the Clearing House, under penalty, as provided in Art. IV above.

N. B.—To insure accuracy and expedite the clearings, parties must be sure the amounts claimed are mutually agreed upon as correct. A penalty of one dollar will be collected of any party claiming from or allowing to another party a wrong amount, and also for each error in footing or subtraction. All doubtful items must be excluded from the report.

VI.

If a claim is not allowed in his report by the debtor party, the claimant must, on notice thereof, immediately pay the amount to the Clearing House.

VII.

In case a party, in his report, allows another party an amount in excess of that claimed by the second party, the excess will be refunded to the first party.

VIII.

The charge for clearing, as provided by the rules, has been fixed at one cent for each item in each report, the same to be paid monthly on presentation of the bill by the Clearing House. Fines to be paid at time of notification that the same have been incurred, under penalty of the withholding of the next amount due such debtor, or reporting the delinquency to the Board of Directors.

IX.

Parties whose reports show a net balance in their favor, may call for checks after 2:30 P.M.

X.

No reports shall be amended after 11 A.M.

XI.

Office hours shall be from 9 A.M. to 3:30 P.M.
